"My blocked arteries are clearing!"

"I had 80% blockage of my carotid arteries before using your amazing discovery. In a short time, my blockage is now down to 40% in each artery according to my doctor-administered ultrasound."

— John Scheuerman, Boxford, MA

Dear soon-to-be MUCH healthier friend,

An ultrasound showed John's once-clogged arteries are clearing up fast ...

... a blood flow test showed Agnes finally restored circulation to her toes — and avoided amputation ...

... a catheterization proved the blockage in Harold's heart is gone ... Gone ... GONE!

... and a blood test showed Sandy's

cholesterol ... and blood sugar levels are back in the normal range again!

What did it?

A remarkable nutrient — that's FDA approved — and safe as household vinegar — but powerful enough to dissolve deadly plaque that clogs your arteries — and puts you at risk for a heart or brain disaster!

BEFORE

AFTER!

It's an amazing amino acid called ethylenediamine tetra-acetic acid — or "E-D-T-A" for short. Ever heard of it?

Well if you **suffer** from:

- **Poor circulation!**
- **Clogged arteries!**
- **Low energy levels!**
- **Muscle and joint pain!**
- **High cholesterol!**
- **Blood sugar problems!**

This remarkable nutrient may just be the health miracle you've been praying for! And guess what?

Doctors — including traditional medical doctors have known about this remarkable healing agent for over 60 years — but many of them were gagged — and even banned — by the medical establishment from sharing the news of this remarkable nutrient to patients!

But in this special report — these brave doctors are finally speaking out. They're going to reveal to you what they've

discovered — the good — the bad — and the ugly truth — about an amazing heart treatment called chelation therapy.

You're going to hear from scores of traditional medical doctors ... natural health doctors ... chiropractors ... and many other

(continued on page 4 ...)

(continued from page 3 ...)

physicians who've treated patients and seen — with their own eyes — what chelation therapy can do for your heart ... body ... and mind!

Why are these doctors finally speaking out?

Because it's TIME you knew the truth!

My name is Dr. Alex Livshin. I've practiced traditional and alternative medicine in

"Over 800,000 patient visits were made for chelation therapy in the United States in a single year!"

— The National Institutes of Health (NIH) U.S. Department of Health and Human Services

There's no doubt about it.

Chelation therapy is here to stay. Medical doctors have been using this amazing remedy to treat patients with lead and other heavy metal poisoning ...

... natural health doctors use it to soften and remove dangerous plaque in your arteries ...

... and now major medical institutions are taking note of the phenomenal results patients are experiencing with chelation therapy!

How could they not — over 800,000 patients received chelation therapy in 1997 alone — and the numbers just keep growing by leaps and bounds as doctors defy gag orders and tell their patients about this remarkable health alternative!

That's why The National Center for Complementary and Alternative Medicine (NCCAM) and the National Heart, Lung, and Blood Institute (NHLBI) — both components of the National Institutes of Health (NIH) — have launched the FIRST EVER Trial To Assess Chelation Therapy (TACT).

TACT is the first large-scale, multicenter study to prove the effectiveness — once and for all — of EDTA chelation therapy for individuals with coronary artery disease.

Do you know what that means?

When mainstream medicine confirms the positive results you can experience from chelation therapy — even conservative doctors will

have to let their patients know about this remedy — and insurance companies may finally cover the cost of this treatment!

But that's still a few years down the road. Thankfully you don't have to wait! You can experience the benefits of EDTA chelation right NOW — in the privacy of your home ... without dangerous needles ... and without popping a fistful of pills!

Kelatrol™ Chelation Cream is NOW AVAILABLE — and you can get it at the LOWEST PRICE EVER during this special introductory offer!

The advertisement features a tube of Kelatrol Chelation Cream on the right side. The tube is white with blue and silver accents and has the product name and 'NEW! 100% EDTA' printed on it. - Restore healthy circulation — from head to toe!
- Boost energy levels to new heights!

"Oral chelation didn't work for me"

"I have been using oral EDTA for some time now without much or any success. After using my second tube of Kelatrol™ Chelation Cream, the pain from my angina has noticeably lessened. I expected good results, but not this fast."

— Mike Bottomley, Clearwater, FL

"A simple plaque-clearing remedy that really works!"

"I purchased EDTA Keladine Crème™ because I was fully aware I had plaque in my arteries. Within a few months of using the crème, my carotid arteries were clear and I felt like a new person. I feel there is no need for a person to go through surgical procedures when it can be simply and easily taken care of with such ease. I love using the EDTA Keladine Crème™. It is so easy massaging it into a few of the soft spots of my body."

The Truth About Aspirin And Blood-Thinning Drugs!

You probably won't EVER hear this from your doctor — but it just may save your life...

If you are taking aspirin or blood-thinning (anticoagulating) drugs, please know this:

- **Stomach bleeding** can occur with as little as 600 mg of aspirin taken 4 times a day for just 5 days!
- Other "common" side effects of aspirin include **damage to blood cells, inner ear, kidneys** and other tissues and organs!
- British Heart Foundation study reports that healthy people taking aspirin as prevention do not significantly **reduce their risk of a heart attack — in fact, they DOUBLE** their risk of being admitted to hospital for internal bleeding!
- According to a new analysis by cardiologists at the Duke Clinical Research Institute, 42% of patients rushed to emergency rooms with symptoms of a heart attack were given anti-clotting drugs **ABOVE** the recommended dose!

- Duke University study also found that of the patients at 387 U.S. hospitals studied over nine months — up to 15 percent of those who received excessive doses of blood thinners had major bleeding events which were attributable to an over large dose!

There is a safer way to keep your arteries clear and experience optimum blood flow to your heart! It's called Kelatrol™ Chelation Cream!

breakthrough of the millennium.

I'm talking about an accidental discovery that saved the lives of our soldiers and factory workers back in World War II — and can save YOUR life if you suffer from poor circulation ... a bad heart ... or low energy levels.

Medical doctor speaks out!

**Can you really say
NO to bypass surgery?**

**Noted medical doctor says YES!
... thanks to chelation therapy!**

In his eye-opening book, Dr. Elmer M. Cranton, M.D., author of *Bypassing Bypass Surgery* shows why doctors who don't offer chelation therapy to their patients are wrong ... Wrong ... WRONG!

Plus he reports on published data that supports why this amazing therapy is safe — especially if you have heart problems. So why aren't most Americans being told about this viable alternative?

Dr. Elmer M.
Cranton, M.D.

Because medicine is a business — and YOU are the cash cow! You do the math:

Medical Procedure	Cost
Bypass surgery	Over \$50,000
Chelation therapy	About \$3,000

Consider this one example: In a study of 65 patients who were treated with I.V. EDTA chelation while they were waiting for coronary bypass surgery — 58 of these patients — that's 89% of those folks — no longer needed bypass!

At \$50,000 per procedure **not performed**, that means that surgeons and hospitals gave up nearly \$3 million just for these few patients! Now remember, coronary bypass surgery is the most common

surgical procedure performed in the U.S.

If you were the surgeon or the hospital — would you want to take that kind of pay cut?

Can you see why it's important for you to know your options? Traditional medicine is counting on you to stay in the dark — so they can keep hospitals and surgeons gainfully employed!

Now there's even BETTER news — you can get the benefits of I.V. chelation therapy without the needles and the long hours at the doctor's office — and pay just pennies for dose! How?

With Kelatrol™ Chelation Cream — the only patent-pending chelation Cream available!

Here's what happened ...

When soldiers and factory workers were exposed to heavy metal poisoning during the war, they experienced serious life-threatening illnesses such as liver failure ... mental decline ... angina ... kidney failure ... irregular breathing ... uncontrollable muscle spasms and pain ... extremely low energy levels ... skin rashes and lesions ... and even vision loss!

Doctors soon realized the only way to save them was with a relatively new European treatment called EDTA I.V. chelation therapy.

You see, the amino acid EDTA has the uncanny ability to "claw" on to heavy metals like mercury, lead, cadmium, nickel, chromium and arsenic — just to name a few.

When the EDTA molecules latch on to these metals — they quickly snatch the metals out of your blood stream and eliminate them through your urine and stool. So in a very short time ...

... the folks who were given a previous death sentence because of heavy metal poisoning — literally came back to life!

But the doctors noticed one amazing "side effect" of EDTA chelation therapy ...

... the patients who previously had shortness of breath reported breathing better than ever ...

... those with chronic muscle soreness and leg pain were springing out of bed every morning ...

... and the ones with known heart problems like clogged arteries, heart palpitations and angina were now symptom free! How in the world did that happen?

Diagnostic tests showed their arteries — once lined with calcium plaque — were clean as a whistle! Amazing!

And in 1950, after many medical studies,

Just a dab'll do ya!

Kelatrol™ Chelation Cream is so easy to use. Just apply a small dab on any of these soft spots in your body:

- neck
- forearm
- inner part of arms
- side of torso
- inner thigh

And remember — Kelatrol™ Chelation Cream contains:

- No perfumes!
- No fillers!
- No dyes!

You get 100% EDTA — that starts to work immediately!

Kelatrol™ Chelation Cream is processed under strict guidelines to maintain purity and freshness at optimum levels. This seal of approval means you are getting a formula that passes the test with flying colors.

You can feel free to order as many tubes of Kelatrol™ Chelation Cream as you like without ever sacrificing quality or freshness.

Dr. Norman Clarke, director of Providence Hospital in Detroit, Michigan, noted that EDTA can improve the symptoms of angina pain ... decrease skin diseases ... reenergize your heart ... boost memory function ... rev up energy levels ... and even improve your vision, hearing and sense of smell!

While EDTA "claws" or chelates heavy

metals and removes them from your bloodstream — it also softens calcium plaque — yes the SAME plaque — that lines the walls of your arteries ... blocks blood flow ... and causes a heart disaster!

When EDTA softens the calcium plaque on the walls of the arteries — the plaque is easily removed from your blood stream! Think of it this way:

Remember when you had a stubborn stain on a white shirt? How did you get it out? With a stain remover right? You just squirted that

EDTA chelation — the ultimate plaque remover! Softens and melts away plaque from your arteries!

stain remover on the spot and waited. In a short time, you could see the stain dissolve right before your eyes!

EDTA works the same way. Those amino acids attach themselves to calcium plaque — and in a short time the plaque virtually melts off the arterial walls! Simple — and purely amazing! As I mentioned earlier, numerous doctors became aware of the power of EDTA chelation therapy decades ago. Many of them secretly used this remedy to help their heart patients boost blood circulation ... eliminate heavy metals ... and remove plaque from their arteries. And they

Why oral EDTA chelation

There's no doubt about it — EDTA chelation therapy is a bonafide remedy to help you remove deadly plaque from your arteries.

And when this therapy became available as an oral supplement — it eliminated the painful needles ... long hours at doctor's office ... and the hefty cost. And this in-home alternative has been a Godsend for many folks suffering from heart problems ... poor circulation ... low energy ... and heavy metal exposure!

But have you tried oral chelation — and found that it doesn't work for you? If so, you're not alone! But please, don't blame it on EDTA — blame it on your pills!

The truth is: oral chelation supplements won't work for most people — and here's why:

When you swallow the chelation pills — they have to make their way through your digestive tract. That means stomach acid, enzymes and other digestive juices can easily destroy the delicate EDTA amino acid.

Research from the University of California,

Los Alamos Scientific Laboratory, Los Alamos, NM reveals **oral EDTA is only approximately 4% to 5% absorbed by your body! No wonder it didn't work for you!**

It's just not enough EDTA to get the job done! The problem is not that EDTA doesn't work — you're just not getting adequate levels of this important nutrient!

That's why Kelatrol™ Chelation Cream is a revolutionary discovery! Because this amazing remedy is a cream — it completely bypasses your digestive tract!

You just rub it on your skin and within seconds the EDTA gets into your blood stream and starts to work! Instead of a puny 4% to 5% — you get up to a whopping 60% absorbability! **That's 1200% more absorbability than oral chelation supplements!**

It's really quite simple: The more EDTA

experienced results like these:

"My files are overflowing with patients who restored their health!"

"Chelation is a big part of my practice and we have seen changes in patients with chronic fatigue, fibromyalgia, neurological diseases, depression, skin problems, headaches, and many more conditions.

Dr. Tom Eyrich

— Dr. Tom Eyrich, Indianapolis, IN

"Levels of lead dropped significantly!"

"I have two patients who are children with Asperger's syndrome. They have high lead content. I did a challenge to determine

lead content then gave them EDTA chelation for 30 days and then performed another challenge. The lead content dropped dramatically in both children."

— Dr. L.M., DC, ND,
Santa Barbara, CA

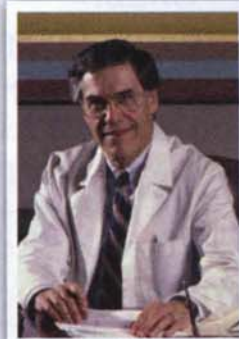

"Test results confirm it!"

"I'm getting great results with EDTA chelation. Patients have more energy, some are losing weight and they are sharper mentally. We use Darkfield to measure endocrine function and all patients on chelation have improved endocrine function."

Dr. Lawrence G., DC, ND, Santa Fe, NM

GREED!

In 1967, Dr. René Favaloro developed a technique called coronary bypass surgery. And this was a life saving option for many folks with severe heart problems. But by the 1970's, doctors and hospitals jumped on the bandwagon and began touting this expensive bypass surgery as your **ONLY** hope for fixing clogged arteries!

And they were making a boatload of money from each bypass surgery!

"Every time a surgeon does a heart bypass, he takes home a luxury sports car."

— Garry Gordon, M.D.,
DO, the "Father of
Chelation Therapy"

At the price tag
of \$50,000 or more
for bypass surgery

— the medical establishment was not about to allow an alternative remedy that cost **95% LESS** than bypass surgery take over their lucrative business!

So chelation therapy was dismissed by the medical establishment and stamped "unproven"!

"Unproven" — Ha! How can an "unproven" remedy have so many walking, living and **PROVEN** success stories!

The truth is EDTA I.V chelation therapy has saved the lives of **THOUSANDS** of folks! And there's even **BETTER** news about this remarkable treatment ...

Years later, chelation therapy became available as a nutritional supplement — yes in a pill form — and **THOUSANDS** more folks have been spared "going under the knife"!

With oral chelation — you can get the

"My gray hair is turning black!"

"My hair had been cotton-white for a number of years. After only five treatments with your powerful EDTA formula, it has started turning black.

"I have fibromyalgia and have had constant pain for years, but I wake up in the mornings now, and am pain free. I still have a little pain throughout the day, but it is far less than what it had been. I had pain in my legs when I try to walk, and now I can walk two miles without pain. I feel better now than I ever have. I can't say enough good things about this product!."

— Francis Trotter, Martinsville, VA

benefits of I.V. chelation therapy without the painful needles ... expensive cost ... and long doctor visits. That was revolutionary! You just take the pills right in the privacy of your own home! However, you must know this:

The little-known problem with oral chelation supplements

When you take oral chelation — the pills have to be digested. That means they have to go through your digestive tract where they are immediately attacked by acids, enzymes and digestive juices in your stomach. Unfortunately that can destroy most of the critical EDTA amino acid!

In fact, research from the University of California, Los Alamos Scientific laboratory, Los Alamos, NM shows the absorption rate of oral chelation is only 4% to 5%!

Physician heal thyself!

Here's what doctors are saying about their personal experience with Kelatrol™ Chelation Cream!

"It took a family catastrophe for me to take action ..."

"Several months back, my best friend's dad was scheduled for "routine" bypass surgery. I had known this man for over thirty years and he was like a father to me. He did not fare well with the surgery.

The bypass procedure loosened arterial plaque causing multiple mini-strokes with dire consequences. He is now bedridden, confined to a nursing home, a paraplegic for all intents and purposes and there is little hope that he will ever come home. MRI of the brain shows several cerebral infarcts.

It was this sad and unfortunate experience that finally caused me to try Kelatrol™ Chelation Cream. After one week of using Kelatrol™ Chelation Cream, I began to notice that I just felt better. My mind seemed sharper and I felt a lift in spirits.

After two weeks I noticed specific results in the form of marked improvement of chronic bronchitis. Both my lungs and nasal passages were dramatically clearer.

After four weeks, chronic muscle pain (fibromyalgia) was reduced by about 80%. In about eight weeks I noticed that my feet, which were always ice cold, began to feel warmer. To the point that I now walk around my home barefoot, something I've not been able to do for years.

I do not want to suggest that Kelatrol Chelation Cream™ is a cure for every imaginable chronic health problem but Kelatrol™ Chelation Cream is truly effective, modestly priced and very safe to use and as such, stands alone in the alternative health care arena.

Thank you for putting this wonderful product within the grasp of many people who otherwise would never have had chelation therapy available as an option."

— Dr. R.M.,
Huntingdon Valley, PA

"I decided to listen to my own medical advice — and now my blood pressure is normal again!"

Dr. Ray Pearson

"I have 10 patients on your powerful product and it is working great. Personally, I have been taking 40 milligrams of blood pressure medication to try and control my high blood pressure but it has not been working. My blood pressure has been in the range of 165/100, but after using the product for only 2 months, my blood pressure has dropped significantly to about 130/75."

— Dr. Ray Pearson, DC
Harrison, AR

"Hair samples showed dangerous levels of mercury ..."

After using this revolutionary product, the mercury in my hair sample before and after tests went from "off the charts" to almost zero! I am very pleased with the benefits of your non-oral EDTA product!"

— Dr. C.S., DC,
Odessa, TX

(doctors continue on page 12 ...)

For some people — that may be enough to notice a positive improvement in their health. But most folks need more than a puny 4% or 5% EDTA to really clear out DECADES of crusty plaque imbedded in your arteries!

That's why I'm proud to announce a revolutionary remedy that delivers a **whopping 1200% more absorbable EDTA** for maximum heart health!

It's called Kelatrol™ Chelation Cream — available only through Innovative Products & Solutions, Inc.. *This amazing discovery is the only patent-pending formula that delivers EDTA directly to your blood stream!*

Because this amazing formula is a Cream you apply to your skin — and not a pill you swallow — you completely bypass your digestive tract! That means ...

... the EDTA isn't destroyed — so you get 100% pure EDTA at 1200% absorbability for OPTIMUM results!

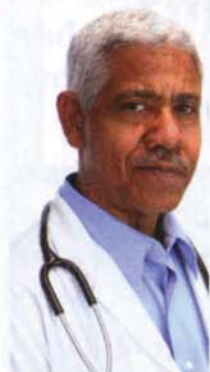

Does Kelatrol™ Chelation Cream really work? — does it ever!

Real doctors speak out!

Kelatrol™ Chelation Cream is nothing short of a godsend. And doctors who know the power of chelation therapy are experiencing miraculous improvements in the health of their patients when they switch to Kelatrol™ Chelation Cream. Take a look ...

"Numbness in my toes almost gone!"

"I've had numbing and tingling in my toes for the past 3 to 4 years and after using the product (it's powerful!), I am seeing great improvement. I expect the numbing and tingling to completely go away. Also I don't know if it is related but my PSA (prostate test) in the same time frame has gone from a 3.8 to 1.3!"

— Dr. D.H., Ogden, UT

"No longer wheezing!"

"Within one month of using Kelatrol™ Chelation Cream, my blood pressure has gone from 145/96 to 120/80. I am a smoker and my lungs are clearing up. I would wheeze when I laid down for bed, and I no longer wheeze. I know it is the Kelatrol™ Chelation Cream because it is the only thing I am doing differently."

— Dr. B.L., Philadelphia, PA

"Clearer, sharper thinking!"

"After my first week of taking this amazing EDTA product I felt lighter on my feet, my thoughts were clearer and more focused and my energy was noticeably higher. No other product has made such an immediate and discernable impact on me."

Dr. J. Mannella

"Treated over 500 patients!"

"I treated over 500 of my patients with your amazing product with excellent success. Considering its ease of use with self-administration, convenience, and safety, I truly believe it is one of the most significant means to improve patients' overall health that I've experienced in my 30 years of practice."

— Dr. R.E., M.D., Tustin, CA

"A breakthrough chelation remedy!"

"Kelatrol™ Chelation Cream has changed the field of chelation therapy. Now patients who were unable to come to the office regularly, patients with more advanced renal disease, and patients unable or unwilling to tolerate intravenous application of EDTA, are able to obtain chelation with as good or better results than the present IV method."

— Dr. E.K.,
Breinigsville, PA

If you're getting up to pee at night ...

Here's another amazing "side effect" you can experience with Kelatrol™ Chelation Cream — a healthier prostate!

Take a look at what this doctor discovered:

"My patients have been thrilled with the results of your non-oral EDTA product. Many of them have been interested in chelation therapy but found the cost and the time to be prohibitive. This product has made these concerns non-issues."

Most of my patients have a noticeable increase in energy. Many no longer have the afternoon slump or no longer need naps.

Of particular significance have been the positive effects experienced by my older male patients with prostate issues. One 62-year-old man was literally getting up every hour at night to urinate. It was so bad that he was considering surgery.

After a short time using your powerful EDTA product, he would awaken at 4 AM to urinate and go back to sleep until his normal waking time! I feel that the benefits the product has to offer improves my patients' health at a deep cellular level, and that they will continue to benefit from it for the rest of their lives. No other product can do that for them."

— Judyth Shamosh, Doctor of Natural
Health Medical Herbalist

"Remarkable remedy for high blood pressure!"

"I have a patient whose blood pressure dropped 18 points after using Kelatrol™ Chelation Cream for only one week."

— Dr. J.T., Seattle, WA

"Highly effective!"

Kelatrol™ Chelation Cream detoxifies in a low-cost, convenient manner. It's an effective way to spread EDTA into the blood stream to clean toxic metals from cells in all areas of the body.

My friend, these are just a few of the real cases from real doctors who've seen firsthand the benefits of Kelatrol™ Chelation Cream!

They're convinced Kelatrol™ Chelation Cream works — and you will be too when you try this amazing patent-pending formula. But it's not only doctors who rave about Kelatrol™ Chelation Cream ...

Here's what folks — just like you — have to say about this revolutionary, safe and powerful chelation remedy:

• **Michael Baum** who hails from New York City, NY reports ...

"Saving my veins!"

"I've been on

chemotherapy for a while and my veins are getting calcified. After one month of using your product my veins are now pliable and nurses have no trouble finding veins for injections.

My intermittent claudication also improved dramatically."

• **Jane Synovec** from Modesto, CA is noticing remarkable changes in her health and says ...

Personal and true story!

"Snatched from death's door!"

"I have referred several patients to use Kelatrol™ Chelation Cream and several have had great results — but this one is amazing:

An adult male, 84 years old, had a heart attack. He was told he had 1 completely blocked artery and 3 others that were about 75% blocked.

The doctors sent him home basically to die, telling him that they could not help him.

I put him on an enzyme and Kelatrol™ Chelation Cream, and the results have been miraculous.

Within a few weeks he was alert and moving around again. Within 1 month his automatic pacemaker no longer went off and was not needed. His blood pressure normalized, and after a few more months his facial droop began to go away. He is now active and alert and doing amazingly well."

If you're struggling with vision problems — take a look at this:

"My eye doctor can't believe it ..."

"I previously related to you the improvement I had experienced in my pressure readings related to my glaucoma and just wanted to let you know that I have now been off the Xalatan eye drops for nine months."

As of my appointment last week, my readings were actually better than they were six months ago.

My ophthalmologist does not want to see me again for one year. As I told you before he doesn't know if this is strictly related to chelation because he has never had a patient with glaucoma who has also had chelation ... but ... it seems to me this might be something that would be worth your research. This seems to be almost a miracle!"

TUESDAY, APRIL

Clinical trial proves it!

Kelatrol™ Chelation Cream fights off the ravages of old age!

"I'll have to admit that when I was approached to conduct a clinical trial on Kelatrol™ Chelation Cream, I was both curious and skeptical.

I purposely didn't tell my patients about any possible positive "side effects" they may experience with Kelatrol™ Chelation Cream.

Surprisingly, a few weeks into the study, I started getting unsolicited phone calls and e-mails from study participants commenting on improvements in vitality, mental clarity, strength, hair texture, skin elasticity, and coordination to name a few.

One of my patients, a Catholic priest, had problems with abnormal platelets, which no practitioner had been able to correct. Approximately one month after starting the Kelatrol™ Chelation Cream, he called me with great delight stating that for the first time in over a decade his platelets had normalized and continue to be normal after several months!"

—Dr. M.P., M.D., C.C.N.,

so far. I was nearly confined to a wheelchair due to the pain in my legs, but the pain is much, much better now. I had been experiencing severe pain in my entire body, but that has now been reduced. In addition, I had numbness and tingling that had been driving me crazy for a long time; it is also much, much better now. Kelatrol™

Chelation Cream is working great."

• Gary Ramshur of Bastrop, LA is thrilled because he's ...

"I have been diagnosed with serious prostate dysfunction and have been experiencing difficulties urinating, and waking up repeatedly during the night. After the 6th dose, I noticed that it was getting easier to urinate and I was sleeping thru the night. Now, a few weeks later, it no longer hurts to urinate and I produce a full stream instead of a trickle."

• Katherine Chilcote of West Chester, PA is on the road to recovery ...

"I was in severe pain every day ..."

"I have been suffering from heavy metal poisoning for a long time. I started using Kelatrol™ Chelation Cream about three months ago and have had amazing results

"Found a safer and faster remedy than I.V. chelation therapy!"

"I've taken I.V. EDTA chelation for three years and the results from just my first two tubes of Kelatrol™ Chelation Cream are the same as from the long term I.V. treatments."

• Jim Todaro, a resident of Point Pleasant, NJ says he's ...

"Breathing better!"

"The results that I have experienced have been great! I am a construction worker and have had ongoing respiratory problems.

(continued on page 17 ..

But since I started taking your product, my sensitivity to things like paint has decreased a lot. I am now able to breathe easier."

• And Jack Yates of Vashon,

Washington announces ...

"I'm off blood pressure medicines!"

"You guys have pretty much saved my life. Your amazing product has cleaned out my femoral arteries (which had been 60-70

Award winning actor chooses chelation therapy!

Jeremy Piven suffers from extreme fatigue and constant muscle pain. The cause?

High mercury toxicity!

Best known for his role as Ari Gold on the HBO hit series "Entourage" — Emmy award winning actor

Jeremy Piven dropped out of a Broadway play because of debilitating fatigue and severe muscle pain.

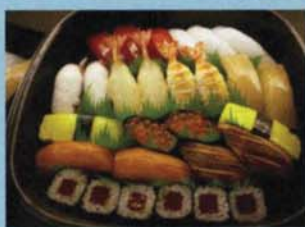

Tests for heavy metal toxicity showed Piven's levels of mercury were extremely high. His doctors immediately recommended chelation therapy to eliminate the dangerous mercury from his body.

Piven — an avid fish eater for over 20 years — says he often ate sushi twice a day.

Raw tuna — often used in sushi dishes — contains heavy mercury concentrations.

In fact, in 2008, The New York Times reported the results from lab tests on mercury levels of tuna sushi samples from 20 restaurants in New York City. Here's what they discovered:

Eating just 6 pieces of sushi a week would significantly increase your mercury levels above the EPA's recommendations. Again, Piven often ate sushi twice a day — for over 20 years!

If you regularly eat fish such as shark, swordfish, king mackerel, tuna, tile fish, albacore or canned tuna — you're getting exposed to mercury!

That's why it's important to eliminate this toxin from your body on a regular basis!

Kelatrol™ Chelation Cream is a safe and easy way to help remove deadly toxins from your body.

Cream vs. pill

Here's why a transdermal delivery system is more effective than pills ...

EDTA Cream:

1. Easy to apply!
2. Works fast!
3. EDTA goes directly to the blood stream!
4. EDTA is never exposed to the volatility of your digestive system!
5. Delivers up to 1,200% more EDTA for optimum results!
6. No swallowing pills!
7. No indigestion or upset stomach from pill use!

Popular oral chelation pills and supplements:

1. Must be swallowed and passed through digestive system!
2. EDTA is only 4% to 5% effective after digested!
3. May cause upset stomach!
4. Pills may be difficult to take — especially for folks over 60!
5. Numerous pills must be taken daily!

AND you get this amazing gift ...

The Good, Bad and Ugly Truth about Chelation Therapy!

— a \$19.95 value — yours **FREE!**

This tell-all special report blows the walls off one of the greatest health conspiracies of the 21st century!

You'll discover why EDTA chelation can be a godsend for some — but only if you know the real truth about this remedy!

In this off-the-press exposé — you'll uncover:

- **Chelation lies!** —

The false rumors planted by the medical establishment — and how to get to the real truth!

- **Why EDTA is so powerful** — can a nutrient that's FDA approved to use in baby food REALLY help you cancel bypass surgery? Amazing answer!

- **Beyond chelation!** Discover the new remedy that's more powerful — and safer than standard treatments!

- **The great heart conspiracy!** What doctors, surgeons and hospitals hope you NEVER find out!

- **Real doctors confess!** What traditional doctors tell you about chelation

Here's how **chelation** works

The amino acid EDTA "**claws**" or **grabs hold of dangerous metals** such as lead, mercury, cadmium, arsenic and other toxins in your blood stream.

While in its grip — EDTA safely removes these toxins from your blood stream through urine or stool.

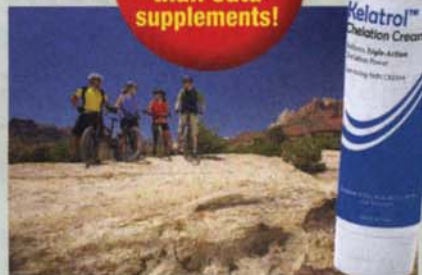

EDTA also **softens and removes calcium plaque** that lines the walls of your arteries. The dissolved plaque is now painlessly flushed out of your arteries!

Now it's never been easier to experience the power of chelation! With Kelatrol™ Chelation Cream — you simply rub it on a soft part of your skin — and the EDTA works **FAST** to eliminate toxins and plaque out of your blood stream!

Feel the difference Kelatrol™ Chelation Cream can make on your health! Right now — you can sample this amazing remedy **FREE** for a full 30 days!

What will Kelatrol™ Chelation Cream cost you?

PLENTY!

And that's GOOD NEWS! *Here's why ...*

I want to make this absolutely clear to you: Kelatrol™ Chelation Cream is a SUPERIOR heart-saving remedy. There's nothing else like it in the marketplace. That's because Kelatrol™ Chelation Cream ...

1. Delivers 1200% more USABLE EDTA than oral EDTA products!

Research from the University of California, Los Alamos Scientific Laboratory, Los Alamos, NM reveals only 4% to 5% of oral EDTA is absorbed by your body! With Kelatrol™ Chelation Cream— you get up to a whopping 60% *absorbability*! That's 1200% more absorbability than oral chelation supplements! **It's no wonder Kelatrol™ Chelation Cream is GUARANTEED to work for you or you get DOUBLE YOUR MONEY BACK!**

2. Contains only HIGH QUALITY EDTA! Sure, you can cut cost by using lower grade, less effective EDTA — but you won't get the GUARANTEED health benefits when you do! That's why Kelatrol™ Chelation Cream uses only the highest quality EDTA that's been scientifically proven to deliver the goods!

3. Comes exclusively in a Cream! It's been scientifically proven that a transdermal delivery system is more effective than pills that have to pass through your digestive system. What's more, many folks find it difficult to swallow 2 ... 4 ... even 6 EDTA pills a day — and others experience upset stomachs from taking those pills! With Kelatrol™ Chelation Cream— just dab it on your skin — and it starts to work IMMEDIATELY!

So the truth is: Kelatrol™ Chelation Cream costs more than other EDTA products on the market — and it should!

That's because we don't cut corners on quality or scrimp on quantity. You get the *OPTIMUM* dose, the *HIGHEST* quality and the *BEST* delivery system you need to help clear your arteries — and prevent serious problems that can change your life for the worse!

Our competitors can't HONESTLY make that claim!

But the results you'll experience from FAR EXCEED our competitors! It's really quite simple: You deserve nothing but the BEST for your health — and you get it with Kelatrol™ Chelation Cream! And because you should NEVER RISK your hard-earned money — especially in these difficult economic times — you can sample Kelatrol™ Chelation Cream for a full 30 days completely RISK FREE!

That's right. **Your credit card will not be charged or your check will not be cashed until you've had the chance to be ABSOLUTELY CONVINCED** Kelatrol™ Chelation Cream is the heart wonder nutrient you've been praying for!

During this special introductory offer — **you get 17 FREE gifts — valued at \$567.39 — absolutely FREE** and you can **save a total of \$948.39** when you sample Kelatrol™ Chelation Cream today!

That makes each application of this amazing formula FAR LESS than a cup of coffee, during this LIMITED TIME ONLY! **Call Toll-FREE 1 800 987-0049 today!**
