

## Did this Cleveland fry cook accidentally stumble onto the heart health discovery of the century?

Dear Reader,

Ok, I'll admit it... This is a strange story.

Why?

Because you wouldn't ordinarily expect to find a potential cardiovascular health breakthrough—in a fry kitchen.

And you certainly wouldn't expect a fry cook to play a role in what could be a once-in-a-lifetime health breakthrough that has doctors and researchers around the country standing at attention...

But believe it or not, that's exactly what happened. Now, I know what you're thinking...

### **This sounds crazy!**

And I'll confess, I had a hard time grasping it at first too.

But in just a minute, I'll tell you how this unlikely heart health discovery is starting to turn heads across the medical community...

Is gaining attention from two of America's preeminent physicians...

And achieved eye-opening results in a study performed by the Cleveland Clinic.

But it all starts with Al Jenkins\*.

Al was a bio-chemist with over 30 years of experience. But in all that time, he had never received a phone call quite like the one that woke him from a nap one lazy Sunday afternoon.

"Hey Al, you know of anything that can clean the fat out of my deep fryer?" the voice on the other end asked.

It was his friend Mike who owned a popular fried chicken restaurant in town. And he was at his wit's end...

Mike fried so much chicken that his deep fryer was constantly getting coated with fat...and causing him major headaches.

Always willing to help a friend in need, Al brushed the sleep out of his eyes and went to work. They tried formula after formula, recipe after recipe and...nothing. Weeks went by...months...

And then...as a last resort, Al finally tried an often ignored, completely natural oil he'd read about.

They took a deep breath, poured it down the deep fryer and...

**Eureka!**

### **The fat slid away like pig on a slip-and-slide**

Mike's fryer was free and clear!

Now, the story could have ended there.

But after witnessing the amazing effect this all-natural oil had on Mike's deep fryer, Al the biochemist asked two ingenious questions. In fact, they're THE questions that led to an exciting heart health find that I bet will have your doctor shaking his head in amazement.

First he wondered... "Just what is the active ingredient in this natural, wonder oil?"

And more importantly...

*(continued on next page)*

# **“If something this natural works so well for Mike’s deep fryer... What could it do for your health?”**

**S**o Al decided to pose his questions to some top-notch local medical researchers to see if his ideas might have some merit. And after a few long months and several slammed doors, Al finally found a group willing to put his discovery to the test.

But not just *any* test.

Before they invested their time, money and effort in Al’s idea—they *needed* to be sure. So the group commissioned a head-turning study performed at the Cleveland Clinic...

And the results might’ve just put Al’s formula on the medical map to stay...

## **Cleveland Clinic puts Al’s mystery oil to the test...**

You see, when researchers set out to test the effectiveness of any heart formula they don’t simply test the product on run of the mill, everyday mice...

That’d be too easy!

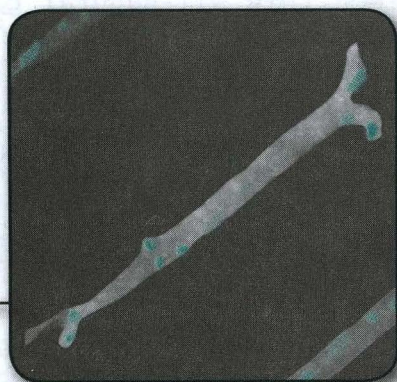

They test it on what are known as Apo-E mice.

These are mice specifically bred for heart tests such as this one. If your formula doesn’t show results in these mice, then no one’s going to invest their time, money and effort to take it to the next stage—human research...

And after only 12 weeks, Al’s “mystery oil” clearly helped support healthy arteries in these mice! Now it’s one thing to tell you this but it’s something you have to see to believe. Have a look for yourself...

After viewing this image, researchers and doctors alike couldn’t be more excited by its potential.

Of course, this is a mouse study so we’re waiting for more research to see its potential in humans, but one thing is clear...

“Mystery Oil” Artery

Al’s “mystery oil” isn’t simply a dime-a-dozen, natural fryer cleaner...

It could actually be an important tool in supporting overall heart health. And its active ingredient was a little-known fatty acid that we are now calling we are now calling “one of the first important heart health discoveries of the 21st century.”

## **A natural miracle compound known as... Omega 7**

Now, I’m sure you’ve heard of the good-for-your-heart Omega-3 fatty acid.

But Omega 7 is a completely new heart health phenomenon that’s just starting to pique the interest of doctors around the world.

And once the genie was out of the bottle on this wonder ingredient, scientists rushed to formulate it into a soft, easy to swallow capsule.

But they ran into a few problems.

You see, the mouse study used a source of Omega 7 found in macadamia nut oil which also contains higher levels of an unhealthy saturated fat known as palmitic acid, was expensive to purify (which means higher costs for you) and a much lower Omega 7 content.

In short, Omega 7 from macadamia nut oil just wasn’t good enough for you!

But after much research, time and effort, scientists have finally found one form of Omega 7 that launches over all of those problems like the General Lee over a riverbed.

## **Introducing Provinal™— The purest way to help keep your cholesterol healthy**

Provinal is a brand new form of ultra-purified Omega 7 derived from a little known and often ignored fish oil...

By using fish oil instead of other sources of Omega 7, Provinal is able to offer you all the heart healthy positives of Omega 7 without a wallet-busting price tag.

And its purified form contains less than 1% unhealthy palmitic acid (That’s 7 times lower than Omega 7 from Macadamia oil) and 22% more Omega 7 content than the next highest source on the market.

So with this unique form of Omega 7 you get more of the good and virtually none of the bad.

And just how good is good? Well, these results were so exciting that the researchers behind Provinal were soon awarded a government grant "to support groundbreaking biochemical research" worth almost a quarter of a million dollars.

And as the director of the National Institute of Health (NIH), Dr. Francis Collins put it, "The projects funded [by these grants] show significant potential to create new therapies that will address unmet medical needs."

## That's when the medical community really began to take notice! Provinal™ receives high praise from "America's Natural Doctor"

In fact, when legendary natural doc Mark Stengler heard about Provinal's groundbreaking results he immediately got on board.

You may recognize doctor Stengler from his nationally televised program, Dr. Stengler's Natural Healing, or seen one of his many appearances on PBS, CBS, ABC-Family, NBC, Fox and other networks. Or maybe you heard of his groundbreaking approach to natural health on one of two separate PBS documentaries.

It's fair to say that Dr. Stengler's opinion carries a lot of weight in the world of natural health...

And he's so excited by Provinal that he's declared it, "One of the most exciting breakthroughs of the 21<sup>st</sup> century."

And as far as purified Omega 7 in general, Dr. Stengler wasn't the only well-known doctor who was impressed.

World renowned physician Dr. Michael Roizen, who...

- ✓ Is a New York Times #1 bestselling author four times over...
- ✓ Has appeared on the Oprah Winfrey show, Dr. Oz show and Good Morning America more than 28 times each...
- ✓ Has given over 1400 medical lectures...

Agreed to work directly with Tersus pharmaceuticals on future human trials.

And he's not waiting to add purified Omega 7's to his own daily routine...

*"I'm impressed enough with the data that I myself use a purified omega-7...the data imply the higher the percentage of omega-7 the better."*

—Dr. Michael Roizen

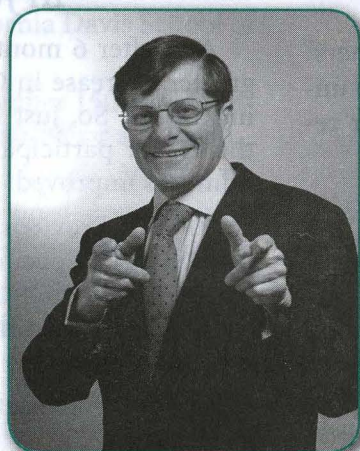

Photo by Tim Hull

And as we've already discussed, Provinal™ packs a higher percentage of Omega 7 than any other form on the market!

So by now, you're probably starting to realize why doctors and researchers are so excited by Omega 7's heart healthy potential.

But I'm sure a health savvy person like yourself is probably also thinking...

## "Isn't there more to heart health than Omega 7's?" Relax... We've only scratched the surface

Hi, I'm Emily Walker. I have the privilege of working with Dr. Stengler on his line of health products...

And we're so pumped up about Provinal Omega 7 that we've entered into an exclusive agreement with its manufacturer. So you currently can't get it in any other doctor's formula.

But as you'll soon see, Omega 7 is only one ingredient in what Dr. Stengler is calling the "ultimate" heart health formula...

The crown jewel in a supplement designed specifically to help support your heart health from every angle...

A brand new "cardio colossus" known as **Provicor**.

Provicor is a heart health breakthrough that uses cutting edge natural ingredients to help cover every aspect of a healthy heart and cardiovascular system.

Including **"the most important heart health indicator your doctor may be ignoring"**.

More on those in a moment, but first let me tell you what Dr. Stengler discovered about how Provicor helps simplify heart health by addressing multiple concerns in one unique formula.

Including one you're probably wondering about right now...

## What about LDL cholesterol? Don't worry—With Provicor... You're covered!

You can't turn on your TV, listen to the radio or walk 10 feet down the sidewalk these days without someone talking about cholesterol...

And while this one aspect of heart health tends to receive more hype and attention than many believe is deserved, it definitely is one heart concern you want to make sure is covered.

That's why the Provicor formula brings you the very best nature has to offer in terms of supporting healthy levels of LDL cholesterol.

(continued on next page)

For centuries, practitioners of the ancient Indian Ayurveda have reached for a natural fruit known as Indian Gooseberry or Amla to help keep hearts healthy.

But even though it's been a mainstay in India for hundreds of years, the hard science and medical studies have only recently started coming to light.

Now, I don't want to bore you with the science but these results on a standardized extract of amla called AmlaMax are nothing short of amazing.

### How amazing is it?

3 separate human clinical studies show notable improvement in both LDL and Total cholesterol in as little as 3 months

And research behind AmlaMax just gets better from there. Need more proof? How about this...

### Study shows improvements in triglycerides in just 3 months and a greater improvement after 6!

Triglycerides may be tough to spell, read and pronounce but with AmlaMax on your side it's easy to help keep your levels in line.

In the same peer reviewed human research mentioned earlier AmlaMax also showed an uncanny ability to lower participants' average triglyceride levels in just 3 months when compared to their starting values. And after 6 months subjects saw an even greater decrease in triglyceride levels when compared to their starting values!

And that's not all...

In these very same studies, AmlaMax also showed a unique ability to increase participants HDL (healthy) cholesterol levels significantly...

Now this is important because not enough people talk about HDL cholesterol these days but it's absolutely crucial to improving your overall heart health.

You see HDL cholesterol particles are the "cleaners" or "scavengers" of the arteries... They help to pick up unwanted LDL cholesterol and ensure it's recycled or re-used through the liver.

And in one of those studies, AmlaMax was able to increase healthy HDL cholesterol in just 12 weeks!

And believe it or not, we still haven't reached the end of this natural wonder's heart healthy abilities...

Now you may be thinking, "We've already covered HDL cholesterol, LDL cholesterol, total cholesterol and triglyceride levels... What else do we need to talk about?"

Good question and the answer is: A great deal more because as Dr. Stengler always says...

### Cholesterol is only half the story Wondering about the other 50%? Let's see how Provicor can help...

For years most doctors focused almost exclusively on cholesterol levels as the key indicator of overall heart health...

So you can imagine their surprise when patients with *perfect* cholesterol levels were still flocking to their offices with heart health concerns.

And they couldn't solve this riddle...

But when Dr. Stengler read a groundbreaking study published in the New England Journal of Medicine, he knew he'd found the answer.

What was it? **It's one of the most important indicators of heart health your doctor may be ignoring... Inflammation.**

Just how critical is inflammation?

Well, that same landmark New England Journal study found that levels of inflammation can be as good an indicator (if not better) of overall heart health than cholesterol levels!

And that means you'd better pay attention to inflammation if you want to ensure your heart stays healthy...

And AmlaMax works as a virtual inflammation watchdog! Let me explain how...

Now, your overall level of inflammation can be measured by studying what's known as C-Reactive Protein (CRP) levels in your blood... The lower the better.

And it turns out our old friend amla steps up again by helping to make sure your CRP levels (and therefore inflammation) are in tip-top shape.

Once again, in the same landmark human research, AmlaMax was able to...

### Reduce CRP levels in just 3 months!

And after 6 months, study participants saw an even greater decrease in CRP levels compared to their starting values. So, just like with, HDL, and triglycerides... the longer participants took AmlaMax, the more their numbers improved.

So with Provicor, you get a cutting-edge heart supplement that specifically targets healthy inflammation levels along with groundbreaking support for LDL cholesterol, HDL (healthy) cholesterol, total cholesterol and triglycerides levels.

And we're just getting warmed up!

Want to see how else Provicor can help keep your heart strong? Then let me show you how you can take advantage of...

## The French secret to beautiful blood pressure

Believe it or not... it all starts with another heart health mystery. This one was such a stumper it even has a name: **The French Paradox.**

You see, the French were renowned for heavy drinking and eating foods high in unhealthy saturated fat...

Yet their hearts were still amazingly healthy.

How did they do it? Well, it just so happens the medical community was wondering the *very same* thing.

And after years of research and decades of coming up empty-handed, doctors finally focused on the grapes in the wine the French were notorious for drinking and...

**Voilà!**

## The French Paradox was finally solved... and it's good news for you!

It turns out the grapes were jam-packed with antioxidant power that helps support normal blood pressure. And some say that's what helped the French keep their hearts ticking like clockwork.

And Dr. Stengler has gone to great lengths to ensure you get a grape seed extract in Provicor that is...

- ✓ Structurally unique
- ✓ Includes 90%-95% Polyphenols (the active compound in GSE)
- ✓ Clinically researched to help keep your blood pressure in the normal range

It's a blockbuster blood pressure compound known as MegaNatural-BP®. And I'd bet money that even the most stubborn doctors just can't argue with the science behind this heart health phenomenon.

In a 2009, randomized, double-blind, placebo-controlled trial performed by the Department of Preventative Cardiology, University of California Davis School of Medicine...

Twenty-five subjects were given either 150 mg of MegaNatural-BP, 300mg of MegaNatural-BP or a placebo...

And as you've probably guessed, the MegaNatural-BP groups proved better at maintaining healthy blood pressure in the normal range over the placebo group, hands down!

In fact after just 4 weeks both MegaNatural groups had decreased both their systolic and diastolic blood pressure significantly... whereas the placebo group showed virtually no effect!

And these amazing results confirmed a previous study done on MegaNatural-BP in 2007.

But believe it or not, Dr. Stengler wouldn't let us stop

there. So we added another unique way that Provicor helps keep your heart pumping strong...

## The miracle energy enzyme that earned one researcher a Nobel prize

In the ongoing struggle to maintain a healthy heart your body has one natural ace up its sleeve...

An amazing enzyme that helps boost your cellular energy, strengthens overall heart function and may help maintain healthy blood pressure. Put simply, CoQ10 could be one of the most important natural enzymes in your body.

A powerful antioxidant that destroys age-inducing free radicals to keep your heart and your body more youthful.

But there's a problem...

## You're running out of this natural heart helper at an alarming rate...

You see, when you're young your body creates all the CoQ10 you need. But as you age, your body naturally produces less and less.

And what's worse, you're at even greater risk of deficiency in this wonder compound if you happen to be taking a statin drug.

But fortunately, supplementing with CoQ10 can help replenish your CoQ10 levels and produce amazing heart healthy results.

Now you've more than likely heard of CoQ10 but new studies seem to be published every day on this miracle enzyme so you may not have heard that CoQ10 helps promote a....

### STRONG HEART:

One of the biggest studies performed on CoQ10 and published in the medical journal Molecular Aspects of Medicine showed the majority of the 2,359 participants maintained healthy heart function after just 3 months of CoQ10 supplementation...

### ANTIOXIDANT TRIPLE THREAT:

Multiple studies have shown that CoQ10 (once converted to its antioxidant form in the body) has the ability to destroy unhealthy free radicals in the bloodstream. But scientists have also noted that CoQ10 has the amazing ability to literally convert certain free radicals into healthy vitamin E and Vitamin C forms!

(continued on next page)

## BEAUTIFUL BLOOD PRESSURE:

Results from thousands of study subjects have shown CoQ10 may help support health systolic and diastolic blood pressure.

That's why Dr. Stengler insisted on a whopping 100 milligrams of this heart healthy hero in every dose.

And believe me, you won't have to *wonder* if it's doing its job because...

## CoQ10 is a heart health miracle you can actually feel working

In 1978, a biochemist named Peter Mitchell was awarded the Nobel Prize for discovering that CoQ10 supplies the spark your body needs to convert nutrients into energy.

So you'll not only feel confident that CoQ10 is helping maintain your normal blood pressure, fighting free radical damage and supporting your overall heart function... But you'll also be able to face each and every day with a vigorous spring in your step as CoQ10 infuses each and every cell in your body with life-enhancing energy!

CoQ10 helps give Provicor a heart health difference you can *feel*...

But Dr. Stengler still wouldn't let us stop there!

Provicor has *already* gone above and beyond what you'll find in most heart health supplements by combining 4 groundbreaking cardio ingredients that help maintain your heart health from every angle...

## But the health benefits of Provicor don't stop there... not by a long-shot

Provicor also doubles down on your cholesterol support by infusing every heart healthy soft gel capsule with a dose of plant sterols.

**These unique plant compounds are heart healthy phytosterols which have been shown in a meta-analysis involving 84 clinical trials with over 6,800 participants to help maintain healthy LDL and total cholesterol levels.**

Honestly, I can't think of a supplement that provides more support for your heart and entire cardiovascular system than Provicor.

With Dr. Stengler's exclusive Provicor formula you get the brand new, ultra-purified form of Omega 7 that you'll be hard-pressed to find anywhere else...

The unsung heart health hero, AmlaMax, that provides you unparalleled support for your LDL cholesterol, tri-

glycerides and provides support for healthy CRP levels...

The secret behind the "French Paradox," MegaNatural-BP which helps support normal systolic *and* diastolic blood pressure levels...

The heart health powerhouse, CoQ10, which provides all around support for your heart and infuses you with life-giving energy, fights free radicals, and may even support healthy, normal blood pressure.

And the all-in-one cholesterol supporting plant sterols, which give you an extra layer of support for your LDL cholesterol levels and cholesterol ratios!

With all this support packed into one bottle...

## Provicor puts an end to "Cardio Confusion"

**C-reactive proteins, triglycerides, systolic blood pressure, diastolic blood pressure, LDL, HDL, Total cholesterol...**

Phew... Taking care of your heart can be a mind-boggling mess sometimes.

And no one knows that better than Dr. Stengler. Every day, patients come into his clinic scratching their heads about what to do for their hearts.

That's why he wanted to create this all-in-one solution for you.

Provicor makes it easy...by combining all these pivotal elements of heart health into two, easy-to-swallow gel capsules.

And these are two gel capsules you won't find anywhere else!

Remember Provicor uses a unique form of ultra-purified Omega 7. And Dr. Stengler's the first to combine this unique form of Omega-7 and these heart health all-stars into one simple formula that you can't get from your doctor... Or any other doctor!

So act now and secure your share of this exclusive supply before the bottles start flying off the shelves because...

## Word is starting to spread!

I'd love to tell you that we have an endless supply of Provicor but once word gets out about its all-star ingredient, Omega 7, we predict the response will be mind-blowing.

Why? Because right now untold amounts of money, time and research are being poured into human studies...

A write-up about Omega 7's exciting potential, co-authored by Drs. Oz and Roizen just recently appeared in over 133 Sunday newspapers delivered to some 40 million readers around the country...

And I even have it on good authority that Omega 7 may be featured on a world-renowned health talk show in the near future... (Sorry I can't spill the beans on which one!)

So there's simply no way to predict how fast news will spread about its unique potential to help keep your heart healthy. But there IS a way to guarantee you'll never run out...

And since Dr. Stengler is currently the only doctor to have secured this superior form of Omega 7 for his very own formula, we wanted to offer you exclusive access today.

**So right now you have a  
grab-it-while-you-can  
opportunity to secure your order...  
while supplies are in stock**

Plus, there's even a way to make sure you never worry about running out—thanks to our Auto Delivery Service. It's completely free. All you have to do is select the Auto Delivery Service option when you order!

That way, when everyone else finds out about the awesome power of Omega 7—you'll already have your bottle AND the low price you pay today will be locked in forever! Yes, even if demand skyrockets like we expect and our suppliers start charging more and more—that cost will NEVER be passed along to you.

And best of all, this service gives you free shipping on every bottle you receive!

It couldn't be easier. In fact, you don't have to do anything. We'll keep you enrolled in this free service for as long as you want! You'll never have to call to reorder or worry about the price going up—or deal with any hassles of any kind.

Right before you'd run out, the same credit card you use today will be charged and your next order will conveniently show up right at your door...plus the shipping's on us!

And we give you complete control! You can change the timing of your deliveries, place your order on hold—or even change the day your credit card is charged. And if you ever want to, you can cancel at any time.

And remember—all of this is absolutely FREE.

Because once you've tried Provicor—I know you'll never want to run out. And with our Auto-Delivery Service, you won't even have to think about it.

And when you *do* order right now you'll also receive Dr. Stengler's exclusive...

**"Results or Refund"  
lifetime guarantee**

That's right, no time limits on this guarantee whatsoever! Keep it for 60 days, 90 days, 1 000 days... It doesn't matter.

In fact, Dr. Stengler is so confident in Provicor's ability to help support your healthy, normal...

- ✓ LDL Cholesterol
- ✓ HDL Cholesterol
- ✓ Total Cholesterol
- ✓ And supercharge your heart's energy
- ✓ Triglycerides
- ✓ Blood Pressure
- ✓ CRP levels

That he encourages you to have your doctor check your numbers before and after you start using Provicor...

And in the unlikely event that he's not over the moon with Provicor's results (or if you're just unhappy for any reason) then simply return the unused portion of Provicor at *any* time and we will happily refund 100% of the purchase price (less shipping).

**No questions asked.  
So try Provicor on me!  
Honestly, why would you wait  
a moment longer?**

Each of the ingredients in Provicor would give you unquestionable support for your heart on its own...

But now that they're all together for the very first time, you have an exclusive risk-free opportunity to help support your heart like never before...

A nothing-to-lose invitation to help keep your heart beating stronger than a bass drum. your blood pressure healthy and your heart's energy turned up to the max.

Don't delay another second, this is your chance to claim some of our exclusive supply of Provicor before the growing excitement sends demand through the roof.

So place your order now...While you still can!

To heart health done simple,

*Emily Walker*

Emily Walker  
Vice President,  
Dr. Mark Stengler's Health Products

P.S. Provicor is one-stop-shopping for your heart and also includes the brand new ultra-purified form of Omega 7 you'd be hard-pressed to find anywhere else. Dr. Stengler's exclusive Provicor formula offers complete support for your LDL and HDL cholesterol, triglycerides, blood pressure, CRP levels *and* your heart's energy reserves. Try it risk free today by taking advantage of our "Results or Refund" lifetime guarantee. Don't miss out, place your order today!

\*Name changed to maintain privacy.

## RISK-FREE TRIAL CERTIFICATE

# YES!

I want to try the "ultimate heart health miracle"! I realize I can try Provicor risk-free with Dr. Stengler's "Anytime Guarantee"—if I'm not 100% thrilled, I can return the unused portion at any time, for a full refund of the purchase price—less shipping. I have nothing to risk with Dr. Stengler's Anytime Guarantee on my side.

### CHOOSE YOUR SAVINGS:

- ☐ **TODAY'S BEST VALUE!** Buy 6 bottles and save \$66 with **FREE SHIPPING!**—That's a 6 month supply for just \$394.70.
- ☐ **GREAT VALUE!** Buy 3 bottles and save \$23. Get a 3-month supply for just \$199.85 (plus \$6.95 shipping).
- ☐ **GET ME STARTED!** Order 1 bottle for only \$69.95, (plus \$6.95 shipping) for a total of \$76.90.

### CHOOSE AUTO-DELIVERY SERVICE:

- ☐ **SELECT THE AUTO-DELIVERY SERVICE** option when you order and lock in the lowest price, **NEVER** pay for shipping, and we'll automatically deliver your next supply right when you need it. You won't ever have to worry about running out or reordering. Just as your initial order is complete, a new supply will be delivered to your door to make sure you never miss a day. With this free service, you never have to call in to reorder, you never have to pay shipping and you are guaranteed today's low rate forever, even if the price goes up later. Your credit card will automatically be billed with the same order (1, 3 or 6 month supply) you choose today. You will get your **FREE SHIPPING** every time! This service can be adjusted, delayed or canceled at any time with a quick phone call.
