

[Fight Aging] Jaw-dropping before and after photos

America's #1 aging expert is releasing ALL the stunning details—
and today, you have an exclusive opportunity to be one of 75
people being granted access

Dear Reader,

The Mayo Clinic says this scientific breakthrough could “**transform** medicine
as we know it.”

A top anti-aging researcher from Harvard calls it “as close to **a miracle** as you can find.”

And *Chemical and Engineering News* says, “This is going to **revolutionize** modern medicine.”

Today, you're going to have to reimagine everything you think you know about aging...

Because scientists have been studying a handful of

Natural compounds with unprecedented age-rewinding power

They're being called “Rescue Molecules” because they successfully bring the symptom spiral of old age to a halt.

In fact, in a 2017 in vitro experiment, UK researchers used them to make old human cells young again.

They treated the old cells with Rescue Molecules and watched stupefied as *they grew young before their very eyes...
in a matter of hours.*

**“When I saw them rejuvenating and looking young, I
couldn't believe it. It was like magic.”**

Then just last year, after zeroing in on the way these Rescue Molecules work *in vitro*, a team of U.S. researchers
used this astonishing breakthrough in mice.

And it turned them YOUNG again.

It's something you really have to see to believe...

The following images are of the SAME mouse.

The 2nd photo was taken just one month after the first.

I'm sure you can see why this is being hailed as a bonafide breakthrough.

Do you see how hunched over and decrepit the mouse looks in the first picture...

And how straight and sturdy its frame is in the second?

This is what the science of growing younger looks like.

But it goes FAR beyond just looking young.

From their hearts to their lungs, their brains to their livers—the scientists **RESCUED the YOUTH** of these **animals**.

And that's not all...

A team of researchers at the Mayo Clinic found mice treated with Rescue molecules remained young—pretty much for life.

When they gave Rescue molecules to elderly mice, they walked faster, scampered longer, had stronger grips—and in general were much more lively and active than their “unrescued” peers.

And, even more remarkable, they also **lived 36% longer...WITHOUT** disease.

In other words, as one article put it, they lived long lives without growing “frail, decrepit and sick—as is the case with nearly half of people over 85.”

In fact, they stayed youthful, nimble, strong and healthy—for life.

These Rescue Molecules are so effective for slowing the effects of aging...

They're so “**valid**” and “**impressive**” says the National Institute on Aging...

That they're in human clinical trials as we speak.

But you don't need to wait.

You don't need to visit a lab or a specialized clinic or have a prescription.

You can get put Rescue Molecules to work for yourself RIGHT NOW...

From the comfort of your own home—without spending a fortune.

And America's #1 anti-aging expert is going to walk you through every detail.

You'll get all the information on natural, science-backed steps you can take today to *fight* aging, so you can look into your spouse's eyes for decades to come...

So you can drive to your great-grandchild's wedding, make an unforgettable toast from memory, and dance the night away.

I'll give you the breathtaking details in a few minutes, but first know this...

Rescue Molecules are just one of the great strides forward we've made when it comes to rekindling youth.

And today, you have the rare opportunity to get a front row seat and discover these breakthroughs *as they're happening*.

As well as all the details on *how to tap into them yourself*. Discoveries like...

- The age-rewinding “Rescue molecules” that actually turned old mice cells young again in one study—in *a matter of hours*
- The peculiar longevity gemstone that acts as protective powerhouse against some of the most common—and devastating—effects of aging
- The ONE natural life-changer that slashes risk of *7 of the deadliest cancers*!
- And dozens more age-rewinding secrets YOU can use to stay healthy and vibrant well into your golden years—and for decades to come.

Hi, my name's Karen Reddel. I'm the President of OmniVista Health Learning...

An organization dedicated to discovering health breakthroughs and giving voice to today's most pioneering medical minds.

But of all the breaking health research we've shared over the years—I can say without a doubt—

I've never seen anything as life-changing as this.

Today, you're going to discover powerful secrets that can help...

Rejuvenate and revitalize virtually every aspect of your health

It's easier to do than you might think—with a little expert guidance.

And one man has been tracking down ALL these major breakthroughs.

As America's most prolific medical editor—it's his life's work.

His name's Bill Gottlieb, and you might recognize him from one of his dozens of TV appearances, including national programs like Good Morning America, CNN, and NPR.

He's also the author of 13 best-selling health books that have sold millions of copies world-wide...

"I'm 65 but feel 35 – and you can, too!"

-Author, medical editor, and anti-aging expert Bill Gottlieb.

He's penned *hundreds* of articles for top-ranking publications, including *Prevention*, *Men's Health*, *Reader's Digest*, *Bottom Line Health*, *Self*, and *Natural Solutions*...

He's written innovative protocols for combatting cancer, diabetes, Alzheimer's, heart disease, arthritis and more.

And he's already helped countless Americans do everything from defeat these devastating diseases to trim down to their high school weight...

Making him the perfect person to walk you through these **age-rewinding secrets** so they *actually work for you*.

And he's sitting on an entire *treasure trove*.

Bill has compiled all of the most breathtaking discoveries on longevity and aging into one, comprehensive online learning protocol: ***The Essential Age-Eraser Protocol: Quick and simple secrets to rejuvenate your body, feel years younger, and defend against disease.***

It shows you exactly how to tap into lifelong youthfulness.

And it's all laid out in simple step-by-step detail.

Fact of the matter is, being strong and healthy is your body's natural state.

Cancer happens when your DNA gets *mutated*.

Alzheimer's strikes when *abnormal* plaques and tangles clump up, literally *dementing* your brain.

Accelerated aging—and the “downward spiral” of symptoms that comes along with it—happens when your body's defenses can't keep up with the barrage of unnatural toxins and stress.

But with the age-defying secrets in Bill Gottlieb's revolutionary protocol, you'll get all the information on natural solutions that can help...

Revitalize and rejuvenate your body— from the inside out

And one of the ways to reclaim your youthful vitality and vibrancy is with **a specific anti-aging process called “autophagy.”**

Autophagy means “self-eating.”

Experts say the easiest way to think about it is like a Roomba inside your cells.

It vacuums up all the cellular junk that leads to wrinkles, fat, and aging.

But when this self-cleaning system gets clunky or damaged, then corrupt shadow cells called senescent cells start to build up inside you.

And they don’t just quietly hang around.

These shadow cells are like hungry vampires and they suck the life out of the young and healthy cells around them—turning *them* senescent too.

And in case you haven’t guessed, *that* is what aging is.

The definition of senescent is “to grow old.”

It’s where the words “**senile**” and “**senior**” come from.

And this domino effect of damage causes aging to speed up every year.

But the Rescue molecules I was telling you about are the only compounds confirmed by science to **STOP this downward spiral from happening.**

Aging is HALTED on the cellular level.

Which combats the effects of aging **from the inside out.**

The fact is, biological age can be *drastically* different than the number of candles on someone’s birthday cake.

In fact, the youth-enhancing and damage-repairing techniques you’ll learn about in Bill Gottlieb’s masterplan don’t just make it possible to reclaim youth...they actually make it *easy*.

And he explains everything in clear and simple terms...

So you won’t need a dictionary or medical degree to understand them.

Like the “Rescue molecules” that are readily available to you right now—and Bill Gottlieb will give you all the details—including exactly where to find them.

But they are just the beginning...

He has an entire protocol full of simple secrets powerful enough to rejuvenate just about every single part of your body.

Like the...

Ultimate aging intervention... **Could this peculiar longevity gemstone actually increase lifespan?!**

This under-studied and overlooked trace mineral is found in deep deposits all over the world.

It comes from peculiar gemstones forged during ancient volcanic eruptions...

Then it bleeds into the surrounding soil and drinking water, which is how we get it in our diet...

And that's a very good thing, because **we need it to live.**

In fact, it's present in EVERY SINGLE human organ and tissue.

But that's not all...

Sweeping studies of more than 1.2 million people—from different countries across the world—found pockets of longevity wherever concentrations of this shimmering mineral were highest in the drinking water.

The link between this peculiar gemstone and longevity is so clear-cut, that researchers call its direct longevity effects “unambiguous.”

That's science speak for **not open to interpretation.**

Simply put—it works.

The fact of the matter is, this overlooked trace mineral triggers longevity in virtually every species it's ever been tested in...

For instance, when researchers gave this longevity gemstone to C. Elegans roundworms —considered a “model organism” and commonly used for anti-aging studies—it **extended their lifespans by a whopping 36%.**

Granted, this is just one animal study. But if this research is confirmed in humans, just imagine what it could mean for the future of healthy aging...

And the benefits don't stop with its life-extending properties either.

This all-in-one anti-aging powerhouse helps almost **instantly renew youth.**

From its brain-boosting benefits to its immune-enhancing power—the difference is evident in a matter of *weeks*.

Science shows it...

- **Literally makes the brain grow.** A bigger brain means sharper thinking, better memory, enhanced creativity, and even higher IQ scores!
- **Thwarts Alzheimer's** by DECREASING the formation of the abnormal plaques and tangles associated with the disease... It also IMPROVES brain connections, and even triggers the BIRTH of NEW brain cells.
- **Helps build “strong as steel” bones.** Research shows this powerful mineral naturally increases bone density. And strong, healthy bones are a critical part of staying active and independent as you age. Which means this simple nutrient could help keep you out on the dancefloor, out in the garden, and walking the back nine.
- **Acts as a natural chill pill.** This longevity gem has been shown to increase serotonin production and improve mood. Which means you could feel lighter and happier, less impatient, and less aggravated by daily grievances like traffic. You might even catch your family snapping candid photos of the bright smile on your face!
- **Turns your immune system into a fortress.** Even small amounts of this trace mineral can help boost the immune system and protect against infection...and some research even suggests it may be a powerful anti-cancer agent.

This longevity gemstone is truly a protective powerhouse against some of the most common—and devastating—effects of aging. And you *don't* need to travel anywhere special to find it.

In fact, it's widely available over the counter and online.

But there are a few specifics you need to know first, like...

- **What kind to take.** There are different forms of this longevity mineral, and they're not all created equally.
- **And how much to take.** A little goes a long way. The right, small dose is more than powerful enough to deliver all the benefits outlined above.

And this is just one of the age-defying secrets you'll learn about in this comprehensive protocol.

In fact, Bill Gottlieb has compiled so much evidence on natural ways to combat aging—from some of the world's most prestigious institutions—that he's convinced ...

“Aging isn't the irreversible affliction we thought it was.”

You CAN rescue your youth— and give the best years of your life a sequel.

Remember how fresh and exciting every day used to be? Your energy felt limitless and your mind was clear and quick.

Well, Bill Gottlieb has spent years researching safe, natural, science-backed solutions that can help you feel that rush of youth again—no matter what age you are right now.

And in his protocol, Bill will give you all the vital details you need to put these solutions to work—starting today.

And that's just the beginning.

He'll also expose...

Big Pharma's "bottle of lies" and the imminent health threat conventional doctors almost *never* discuss with their patients.

But why would they?

American medicine is built on a "sick care" system.

It's a downright terrifying fact—according to the Centers for Disease Control, more than HALF of all Americans live with *at least* one chronic disease.

That's more than 160 million people suffering!

And we're not just growing sicker in spite of mainstream medicine's "help"...

"Medical error" is the *third* leading cause of death in the U.S.

If you're sick, mainstream medicine is more likely to KILL you than to CURE you.

And you PAY for the privilege.

It's mind-boggling...Americans spend \$3.5 trillion on health care every year. *That is almost 20% of our ENTIRE economy.*

Clearly, Big Pharma's conveyor belt of prescription pills is NOT the answer.

Especially when there are safe, natural, inexpensive alternatives.

And in his protocol, Bill will give you all the information on these approaches.

As he already has for countless others.

His books and articles have helped countless people find natural ways to RESCUE their youth—and reclaim their health.

And as a certified health coach and author, he's helped his clients and readers find answers for nagging ailments and serious health issues doctors had no answer for.

And you're invited to be one of just 75 people today to join them, and to receive exclusive access to his latest masterwork, *The Essential Age-Eraser Protocol*.

Clearly, you're here today because you care about adding healthy, youthful years to a *long* and *full* life.

And when you MAXIMIZE the information found in Bill's protocol, you could...

- MINIMIZE your use of mainstream medicine
- MAXIMIZE your ability to battle disease
- And grow YOUNGER from the inside out

It’s absolutely possible—when you’re armed with the right information. Which is why Bill spent months combing through his research files...to provide comprehensive coverage of

The most powerful, natural solutions for combating the signs and symptoms of aging—AND defending against deadly disease.

While everyone’s obsessed with genetics and family history...

Bill knows the simple fact is that age, NOT genetics, is the BIGGEST driver of disease.

For instance, the single-greatest risk factor for Alzheimer’s isn’t your genes...

It’s your **age**.

And after age 65, your risk of Alzheimer’s DOUBLES every five years.

Cancer?

Advanced age is the most important risk factor there too.

The same goes for heart disease.

And it’s not just these big-name killers.

In fact, here’s a list of just a “few” diseases associated with aging, according to one of the pre-eminent experts on biological gerontology...

Osteoporosis	Cardiomyopathy	Cachexia
Osteoarthritis	Diastolic heart failure	Anorexia of aging
Autoimmunity	Cancer	Systolic hypertension
Graying hair	Systemic inflammation	Erectile dysfunction
Presbyopia	Oxidative stress	Vascular calcification
Cataract	Andropause	Impaired pH maintenance
Glaucoma	Reduced light adaptation	Reduced chemical clearance
Wrinkling	Reduced ethanol metabolism	Loss of skin elasticity
Alzheimer’s disease	Somatopause	Impaired vitamin D synthesis
Pick’s disease	Loss of cardiac adaptability	Gut dysbiosis
Corticobasal degeneration	Incontinence	Impaired thirst
Parkinson’s disease	Impaired wound healing	Thinning hair
Multiple system atrophy	Autonomic neuropathy	Impaired balance
Sarcopenia	Menopause	Impaired blood distribution
Atherosclerosis	Stroke	Increased reflux
Age-related macular degeneration	Vascular dementia	Gait instability
	Immunosenescence	

But that’s what’s so downright stunning about Bill’s age-erasing protocol...

It targets ALL of these major health concerns in one fell swoop.

Because the information it contains addresses the common denominator driving them—*aging itself*.

This is it.

The ticket to lasting youth and longevity

Inside his ***Essential Age-Eraser Protocol***, Bill reveals everything he’s learned about the most effective, science-backed approaches for rejuvenating the body, looking and feeling years younger, and defending against deadly disease. Breakthroughs like...
