## A Special Message from Dr. Dennis Clark...

**"If You're Spending Too Much Time In Here, Your Sex Life Could Be, 'In The Toilet', Too. You Don't Have To Put Up With These Nagging Problems Any More!"**

*Your Sex Life Could Be "In The Toilet" Too!*

Dear Friend,

For years, doctors mistakenly thought that taking the male sex hormone testosterone was a risk factor for an enlarged prostate. Well, a widely-accepted CONCLUSIVE JAMA study proves that just the opposite is true.

Normal levels of testosterone sustain lasting prostate health. And help you feel more like a man. With a robust sex drive, a manly physique and full, thick muscle tone.

That's why I'm delighted to introduce PROSTALEVE™ RX9, a state-of-the-art "total man's" formula that not only maintains healthy levels of testosterone but also gives men a safe, drug-free alternative to harsh prescription drugs.

Please Set Aside The Next 10 Or 15 Minutes To Discover How You CAN CHANGE YOUR LIFE... With energy-filled days and lusty nights... WITHOUT always worrying about finding the men's room!

# Prostate Problems Make Your Life **MISERABLE?!**

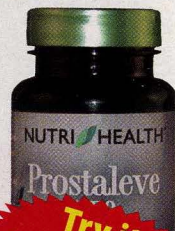

**You're Not Alone.  
Over 30 Million Guys  
Are in the Same Boat:**

- 50% of men age 40-60 suffer from these symptoms.
- 75% of them will have them at age 65.
- It's a national — and painful — epidemic!

**Finally There Is a REAL  
Answer to Your Enlarged  
Prostate Problems**

It's called **PROSTALEVE™ RX9** and it's the first formula ever to address virtually every symptom of an enlarged prostate. It's safe, completely natural and designed to help reverse your urinary and erectile problems.

**PROSTALEVE RX9  
will help restore  
your life to the  
way it should be  
— without being  
a prisoner to the  
bathroom.**

**Try it  
RISK FREE!**

- You Wake up All Night Long to "Go" to the Bathroom
- Your Bladder Always Feels Full — like You Always Have to "Go"
- Sometimes It Stings, Even Hurts When You Pee.
- You're Not Very Interested in Sex?
- Your Erections Are "Soft"... or Don't Even Work at All!
- You Feel "Down", Blue, a Little Depressed.
- It Feels like the Energy Is Sapped Out Of Your Body.

**FACT:** Your complaints are all part of the SAME CONDITION. Chances are an enlarged prostate is "strangling" your penis and "raping" your manhood. And until now, there was no single way to attack ALL these problems.

## Right now, your enlarged prostate could be **STRANGLING** your penis!

That's why you have a weak urine stream. Why it burns when you "go." Why you start and stop — and have so much pain.

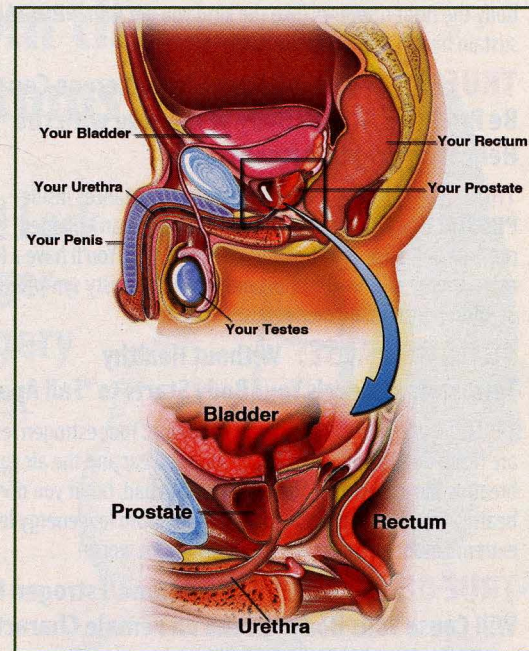

**Chances Are The "Culprit"  
For All Your Problems Is  
An Enlarged Prostate.**

Your prostate is a walnut-sized gland surrounding your urethra, the "pipe" that carries urine and semen to your penis.

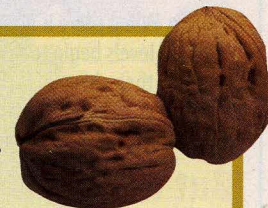

Your prostate first begins growing during puberty, and then it takes a break for a while — a long while! So when a man reaches his mid- to late-forties, his prostate begins its second growth spurt. As the gland grows, it also pinches off the urethra, cutting off urine flow.

Your enlarged prostate makes going to the bathroom a NIGHTMARE. It's frustrating — you're forced to pee constantly, all day long and throughout the night. And you never feel like you've completely emptied your bladder. Even when you do it's usually nothing more than a sputter, dribble or drip. And to make matters worse...

Your estrogen (the female hormones) levels begin to rise. So your body chemistry begins attacking your masculinity... and you start to take on some female characteristics like body hair loss and "man boobs." TALK ABOUT EMBARRASSING!

*Normally your  
prostate is the  
size of a walnut.  
As it starts  
enlarging, your  
prostate grows to about the size  
of an apple. A fully enlarged  
prostate can get to be as big as a  
grapefruit. Ouch!*

## Take This Simple Quiz to Find Out How Much You Really Know About Your Prostate Health...

**TRUE OR FALSE:** Testosterone Increases the Risk of Death or Serious Illness.

**FALSE:** Enhanced levels of the male hormone testosterone is not risky at all. As a matter of fact, your body's production of testosterone begins to decrease in your 30s... and virtually dries up in your 50s. It is strongly recommended you feed your body the right nutrients (like the kind you get from **PROSTALEVE™ RX9**) in order to sustain healthy testosterone levels.

**TRUE OR FALSE:** Natural Testosterone Can Be Produced in Your Body at Any Age with the Help of the Right Nutrients.

**TRUE:** The powerfully effective natural substances inside **PROSTALEVE RX9** have been shown to shrink an enlarged prostate and raise your testosterone levels too. You'll have a lot more energy and more importantly, defy the nasty symptoms of Andropause (male menopause).

**TRUE OR FALSE:** Without Healthy Testosterone Levels Your Body Starts to "Fall Apart."

**TRUE:** Andropause is a very real condition. Your estrogen levels are rising due to impurities in the food you eat and the air you breathe. Most men won't admit to feeling bad, but if you don't have healthy testosterone levels you can suffer from low energy levels... extreme moodiness, depression... and a lot worse!

**TRUE OR FALSE:** A Testosterone/Estrogen Imbalance Will Cause Your Body to Take on Female Characteristics — Including "MAN-BOOBS"!

**TRUE:** When there is not enough testosterone in your body, your estrogen levels begin to take over. Many men experience excess fat tissue on their chest. In layman's terms we call this "man-boobs." At first, the condition may sound funny but it is quite embarrassing and emasculating for the men who experience it.

### But there is an answer.

Take **PROSTALEVE RX9**. It's the ONLY supplement you need to take care of ALL the common problems that come with male aging — the powerful pill based on cutting-edge, shown in research that will change the way you deal with your prostate problems forever! Skip to page 9 for details...

# Stop Feeling Like An Old Man!

**If You Suffer from the "Old Man Symptoms" — like Peeing Problems, Sexual Difficulties and Lack of Energy, You No Longer Have To Settle for Surgery or Worthless Remedies.**

Sure, the over-the-counter formulas gathering dust on the drugstore shelves might provide slight relief. But they're yesterday's news. These "old school" formulations completely ignore all of the important medical research that's been done in recent years.

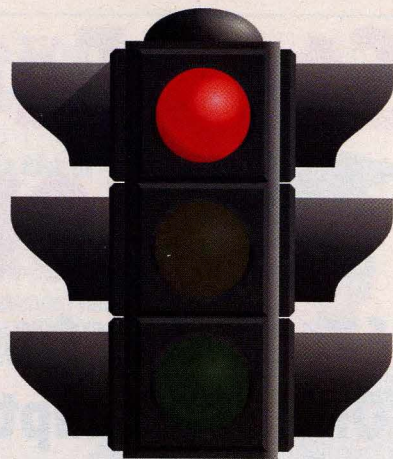

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

# STOP!

## You Don't Have To Take It Any More!

With **PROSTALEVE™ RX9**, there's no more losing sleep, no 'stop-and-start' urination parade, 'emergency' trips to the bathroom, pain, burning, accidents and embarrassing stains on your pants.

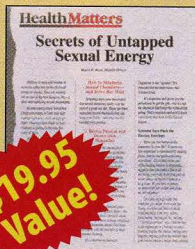

### Power Formula, in Therapeutic-Quality Doses!

**PROSTALEVE RX9** goes to work fast because each capsule is loaded with clinically effective dosages that work! Competing products have trace quantities or "pixie dust" amounts of effective ingredients. That's just as bad as not having them at all!

**PROSTALEVE RX9** is the real thing in serious, effective amounts! Designed to keep you out of the men's room so you can sit all the way through a movie, enjoy outdoor activities and lead the life you want without constant interruption.

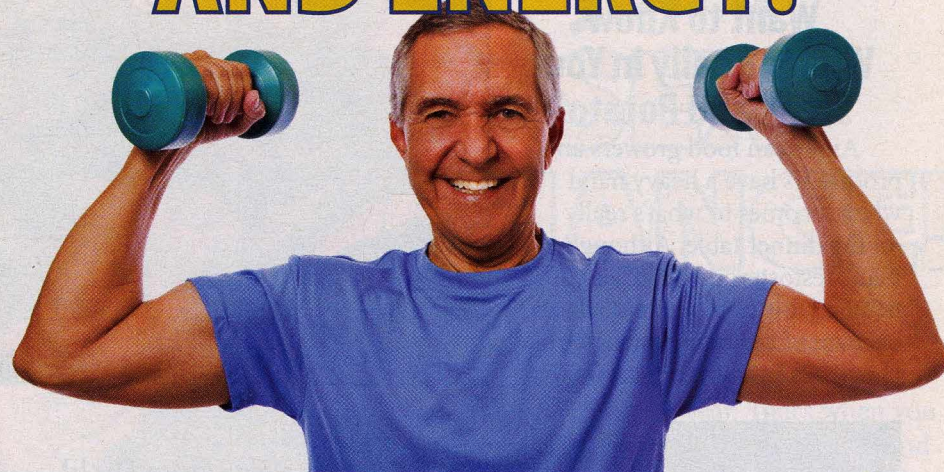

Unlike competing products there are no useless ingredients like lycopene or glycine. With **PROSTALEVE RX9**, you won't waste money on what doesn't work!

...And you're being attacked by the environment and an overdose of estrogen in everything you eat and drink. *You just can't avoid it!*

### Want to Know What's Really in Your Steak and Potato?

American food growers and processors have a heavy hand when it comes to what's really on the dinner table. Although a man's testosterone decreases due to aging, his estrogen levels soar because of too many estrogen-like chemicals in our food and water.

### WARNING: Drink Water At Your Own Risk!

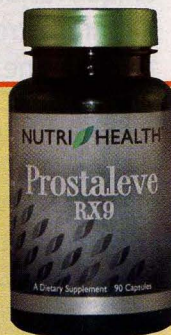

A recent government study found 11 birth control and hormone supplement compounds in drinking water. According to the Associated Press, US health facilities flush 250 million pounds of drugs each year into municipal water supplies.

# The environment is giving you a **SEX CHANGE!**

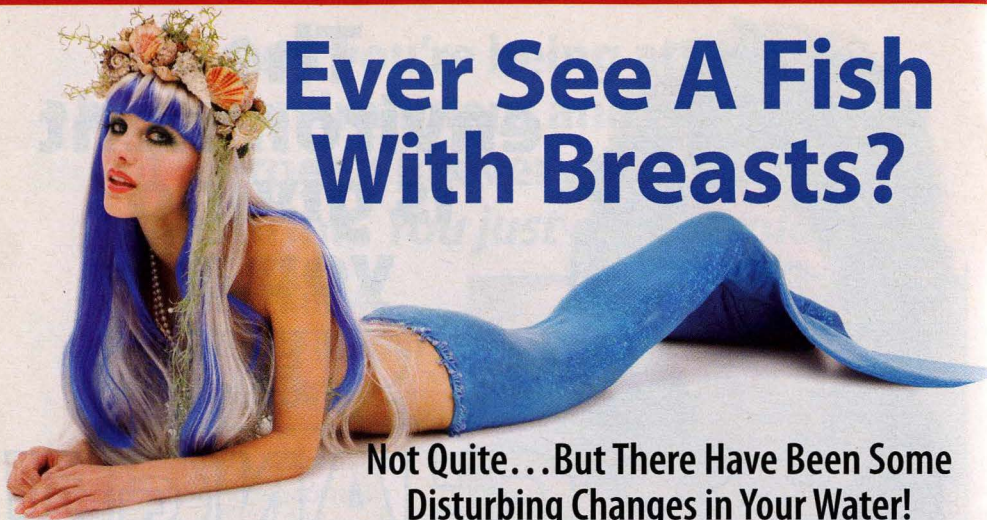

After age 40, the amount of the male hormone testosterone in your body goes seriously lower with every passing year. That's when you start to lose muscle mass, your hair, and even experience a decrease in your sex drive and sexual performance.

Unfortunately, your body's supply of the female sex hormone estrogen dramatically goes up! This "reverses" your masculinity and enables your body to develop some very embarrassing female characteristics such as:

- ✓ Prominent breasts or unsightly "man boobs"
- ✓ Brain fog, memory loss and "senior moments"
- ✓ Feeling "blue" with mood swings
- ✓ Enlarged prostate, urge to urinate
- ✓ Poor sleep
- ✓ Weight gain, especially belly fat!
- ✓ Flabby muscles
- ✓ Diminished sex drive and erectile 'laziness'
- ✓ Hair loss

# Ever See A Fish With Breasts?

**Not Quite... But There Have Been Some Disturbing Changes in Your Water!**

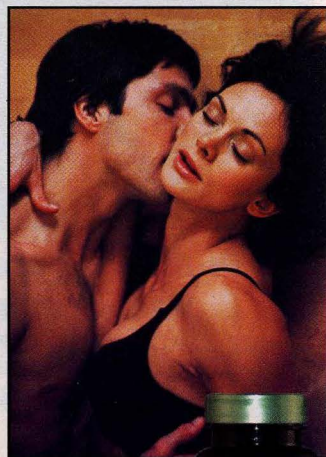

**C**oncentrations of estrogen as high as 90 times the normal rate have been discovered just downstream from Montreal, according to researchers. Scientists found estradiol, a naturally occurring hormone in all women — and synthetic estrogenic compounds as well. They are mostly contraceptive pharmaceuticals and hormone replacement chemicals flushed into the water.

Meanwhile, other researchers are finding ovaries in the testes of one-third of the males of a common species of minnow downstream. Scientists at Quebec's National Institute for Science Research made the discovery while studying how excessive hormones in the water were affecting fish.

## STOP—Even Reverse the Harmful Effects of "Estrogen Poisoning"

Fight estrogen dominance with healthy levels of testosterone. With **PROSTALEVE RX9**, you do this naturally with its breakthrough formula, without harmful side effects.

We carefully researched all our ingredients and included them because of their impressive effects on good prostate health. But saw palmetto, zinc and nettle root also support healthy testosterone levels — and might even help you avoid getting "man boobs."

# Each and every ingredient inside **PROSTALEVE RX9** is a contender to be: **The most popular — and powerful — natural male potency booster of all time.**

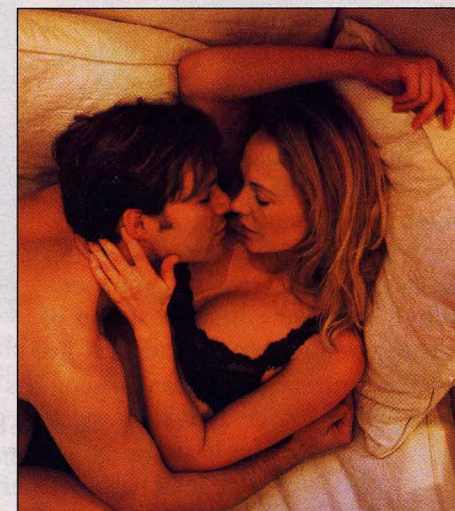

**Asian Red Ginseng** has been used for thousands of years to boost male virility. Originally from China, it is now used successfully by millions of men worldwide.

Over the last 100 years, no other natural substance has been studied more extensively. There are a remarkable amount of scientific studies confirming its male-enhancing benefits including:

- **IMPROVE YOUR SEXUAL PERFORMANCE!** In a clinical study of 45 men, Asian Red Ginseng increased male sexual activity and performance.
- **BE A REAL MAN!** A study of 46 men showed a dramatic increase in sperm count and reproductive ability.
- **INCREASE YOUR SEXUAL DESIRE (libido).** Research also reported better, firmer and longer erections. Don't pay \$13.00 or more per dose of that expensive blue prescription until you try **PROSTALEVE™ RX9**.
- **GET STRONGER, LAST LONGER!** Confirmed by numerous human and animal studies. Agility and reductions in reaction time have also been reported.
- **GET SMARTER!** Again and again it improved concentration, math skills,

memory and logic. This could be the result of improved brain power and also because ginseng is said to improve a man's moods and motivation.

## A GROUND-BREAKING STUDY:

A report in *The Journal of Family Practice* reveals that **Asian Red Ginseng** improved erections in 60% of treated males:

**"...Sexual Desire, Erectile Function And Intercourse Satisfaction Were Significantly Improved."**

## A centuries-old mystery solved: Why Is the Ginseng Used in PROSTALEVE RX9 So Much Better Than Every Other Ginseng on the Market?

**G**inseng has been studied more than any other herbal compound known to man. It's been around for thousands of years. So why has it taken so long prove what it can do for your potency?

The answer has to do with the source of the ginseng. While miraculous results were originally reported in China, the results weren't always the same in other countries. Why? They grew different strains of ginseng — and some of them are just plain useless.

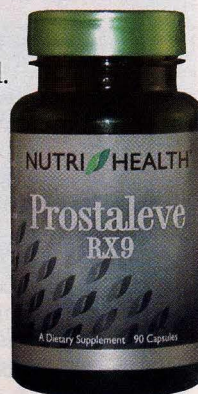

For example, American ginseng has the female hormone estradiol, an estrogen derivative. Frankly, American ginseng could cause more harm than good when it comes to male sexual power.

**PROSTALEVE™ RX9** has no American ginseng. It uses **ONLY** Asian Red Ginseng, the most potent substance of its kind.

Another important factor is how the Asian Red Ginseng is processed. Only selected parts of the plant are steamed and dried. And **ONLY** the ginseng that turns red has the male potency power included in **PROSTALEVE RX9** — a **FULL 500 mg!**

### **PROSTALEVE<sup>RX9</sup> Starts Working the Moment You Take It!**

Once you start taking **PROSTALEVE RX9**, you'll notice dramatic results within 72 hours including increased sexual desire, more physical strength and a general feeling of well being.

## Don't Let Big Pharma's 30-Second Prostate TV Spots Fool You!

You've probably seen the slick television advertisements from big pharma companies selling their drugs for prostate problems... Somehow, they forget to mention how expensive their products are — up to \$13.00 a pill!

...Or that they can make you less of a man. Prescription alpha-reductase inhibitor drugs that treat enlarged prostate also decrease your sexual desire, erectile function, semen volume and even lead to a loss in overall sexual satisfaction. Who needs that?

**What's The Point in Battling Prostate Problems If You Have To Give up Your Sex Life?**

### Here's a side-by-side comparison between PROSTALEVE™ RX9 and expensive Big Pharma Drugs:

Condition — Could Cause:	BIG PHARMA	PROSTALEVE RX9
1. Erection problems	YES	NO
2. Decreased sexual desire	YES	NO
3. Reduced amount of semen	YES	NO
4. A sudden drop in blood pressure	YES	NO

The "World Champion" enlarged prostate reliever also defends you against the biggest enemy of your manhood:

# ESTROGEN!

**Saw palmetto (and beta sitosterol, its active ingredient) have been tested, analyzed and studied for years.** The best "gold-standard" scientific studies do double-blind testing where there are two test groups. One group takes the substance being tested. The other takes a placebo (usually a sugar pill). All pills look the same and test subjects don't know if they're taking the placebo or the real thing.

In test after test of saw palmetto, the saw palmetto groups report significantly improved urinary function, decreased estrogen levels... and normal sized prostates. But here's the catch...

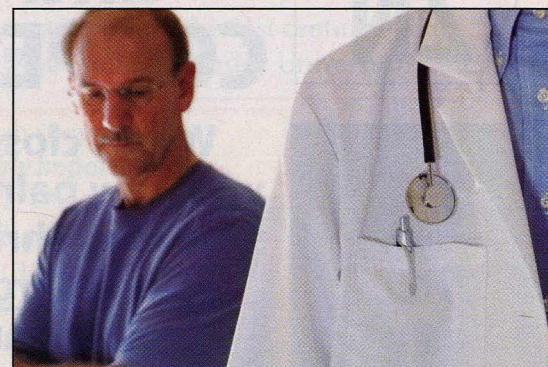

**Researchers also noticed the placebo users developed unwanted (and often feminine) characteristics over time, such as:**

- Sagging Breast Tissue Or "Man Boobs"
- Memory Loss And "Senior Moments"
- Confusion And Disorientation
- Depression For No Apparent Reason
- Unexplained Mood Swings
- More Fat Around Waistline
- Flabby Muscles
- Diminished Sex Drive
- Bald Spots
- Erectile 'Laziness'
- End Of Sex Life

**IN A RESPECTED GERMAN STUDY OF 2245 MEN, zinc was found to be "effective in reducing prostate symptoms without side effects — especially in the early stages."**

That's exciting news. Especially since corresponding Swedish clinical trials found that zinc works even better when combined with saw palmetto. That's why we've loaded **PROSTALEVE RX9** with these two amazing prostate enhancers. Together saw palmetto and zinc create a

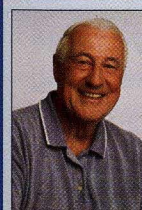

potent team of the most important nutrients a man can put into his body.

**Look on the Web,** there's an enormous amount of research reporting that zinc helps you enjoy a better sex life. Your prostate uses zinc more than any other organ in your body, so sperm and seminal fluids need the right concentration of zinc to function properly.

This helps your reproductive muscles contract and release the milky fluids that produce a healthy ejaculation — and it works time after time.

**WARNING! If Your Prostate Formula Doesn't Include Both Zinc and Copper, Throw It in the Garbage!**

# Purdue University's Amazing Discovery:

**Selenium lets you normalize prostate cells.**

**T**his could be the most important news of the 21st century about BPH and serious prostate problems. The Purdue University findings really got the ball rolling.

It inspired another study which showed that: **"selenium may be remarkably important in reducing prostate risk."**

That's why a leading governmental research institute has started an important 12-year human trial to study the protective benefits of selenium. **According to researchers in a breakthrough animal study:**

*"...the (prostate) cells that are most DNA damaged — and presumably have the highest propensity to be dangerous — may be selectively purged in the presence of supplemental selenium."*

**In Layman's Terms?

**Take your full dose of 100 mcg of selenium every day. It's part of the PROSTALEVE RX9's revolutionary formula.**

# This European secret takes aim at your prostate — and your BALD SPOT

**It's a nasty little plant**, luring you in with pretty heart-shaped leaves. But ouch! — don't get close. You'll discover its tiny, ultra-sharp spines. Hidden inside these natural needles are an agonizing mix of histamine and formic acid. One touch and you'll see why it's called the stinging nettle.

**It's been used by doctors in Europe for centuries** to relieve sore muscles and joints. But guess what? Stinging nettle is reported to be a potent prostate-reducing alternative too. Possibly just as important as saw palmetto.

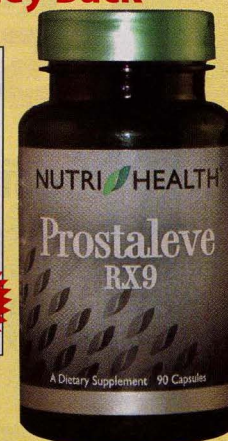

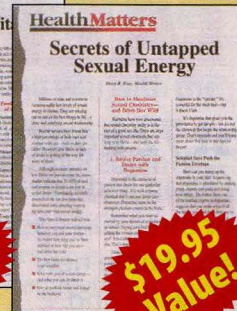

**In 2000, researchers compared stinging nettle and saw palmetto extracts with a leading prostate drug.** In head-to-head trials, researchers noted that both groups experienced increased and uninterrupted urine flow.

**The Results of the Research?** Both the prescription drug and stinging nettle/

saw palmetto combination had similar results — subjects didn't feel the urge to urinate as frequently. Other symptoms were also decreased in both groups. The natural ingredients performed just as well as the prescription drug in every category except one — the natural alternatives had fewer side effects!

**RECENTLY, A NEW PATENT WAS FILED FOR A DRUG TO STOP EXCESSIVE HAIR LOSS AND BALDNESS. ITS ACTIVE INGREDIENT?**

**STINGING NETTLE!** It seems that stinging nettle attacks and defeats DHT. DHT (actual name) is the same rogue form of testosterone that makes your prostate enlarge. It also causes hair follicles to 'miniaturize,' choking off hair growth and leading to baldness.

**Big pharma's secret side effect can be downright DEADLY!**

Prescription drugs can artificially lower your PSA levels by as much as 60%. This can mean a FALSE NEGATIVE test result. This invalidates the test and reduces the accuracy of detecting a very serious — and potentially deadly — health problem.

# What to expect after taking PROSTALEVE RX9

## Within the first 72 hours—

The mega dose of Asian Red Ginseng will kick in after two or three days, so you'll experience a remarkable new vitality, energy, sexual desire and PERFORMANCE.

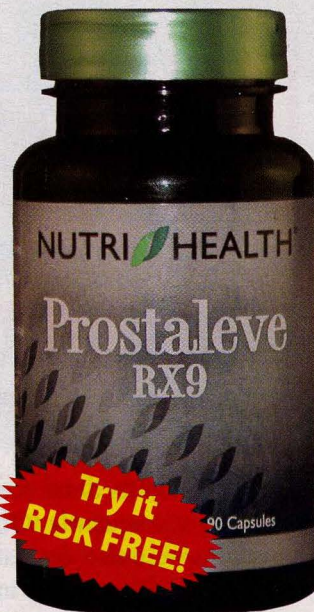

## After the first bottle—

Prostate relief ingredients like saw palmetto, nettle root, selenium, rye pollen extract, zinc and copper take a few weeks to be effectively absorbed by your body. By the time you get to the second bottle, you'll start going less at night; feel less urgency to pee and less pain.

Most of these ingredients have been shown to support normal testosterone levels, so your sex life should get better and better — your partner will DEFINITELY tell the difference — and just love it!

## Long-lasting benefits—

PROSTALEVE™ RX9 is designed to be the only natural prostate and male-enhancement pill you'll ever need. That means long-term prostate health as well... and that's why we included vitamin D3 and vitamin K2.

*"This just in...recent lab test results are conclusive so..."*

**...We've added 3 MORE of  
the Earth's most powerful  
compounds so your prostate stays  
healthy for a long, long time!"**

We are committed to providing you with the latest advancements in BPH natural research. So I just had to add these exciting ingredients...

### ■ Rye grass pollen for inflammation

Numerous clinical trials and studies have shown it to possess significant anti-inflammatory properties. And now more recent findings show specific growth-inhibiting effects on prostate cells.

### ■ Vitamin D3 for prostate health!

We want PROSTALEVE™ RX9 to be the only supplement you'll ever need for restoring your sexual power and prostate health. The latest research shows that vitamin D3 plays a vitally important role in keeping your prostate gland healthy—your whole life!

### ■ Vitamin K2 helps prevent prostate problems from reoccurring

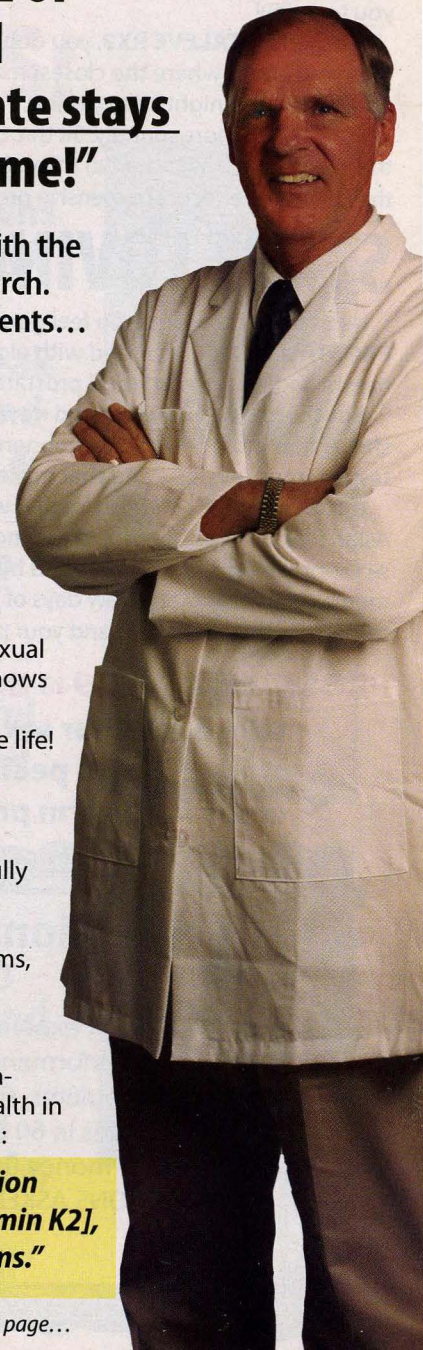

This miracle prostate health aid was successfully tested on 11,319 men!

Those who consumed the most vitamin K2 had a reduced risk of developing prostate problems, researchers report in a new study published in the April 2008 issue of the American Journal of Clinical Nutrition.

In this new study, researchers evaluated menaquinones (vitamin K2) and long-term prostate health in 11,319 European men. The researchers concluded:

***"Our results suggest an inverse association between the intake of menaquinones [vitamin K2], and the risk of developing prostate problems."***
