# PROSTATE PROBLEMS?

Don't Let Them  
End Your  
**SEX LIFE...**  
and **KILL Your**  
**Masculinity!**

Protect and Defend Your Manhood  
from Vicious Enemies that Are  
Hell-Bent on Bringing it Down

It's all out war. They're coming at your manhood from all sides. Right this minute invisible invaders, like Ninja killers, are stealing into your reproductive system, and attacking your prostate.

For a while you don't notice a thing. The swelling is hardly noticeable. But it keeps on growing!

And soon your masculinity starts to suffer...

In small ways, at first. You have to pee more often, and it takes longer to start. But before long it starts to be a problem, a BIG NAGGING PROBLEM... that won't go away.

With modern technology it's easy to get control of this situation, and get back IN THE GAME. You *can* pee when you want. You *can* get laid when you want, without giving it a thought.

But not unless you fight back...

# **“Prostate problems affect more than 50% of males over 40... and almost 90% of males over 50.”**

You stand in front of the toilet for what seems like an eternity, waiting to pee. Then it hurts when you finally start. It's embarrassing. Your friends notice. "Come on George. What's taking you so long?"

You blush, and laugh. But inside, it's not funny. And it gets worse. Your sleep suffers. You feel the "urge" 3, 4 or even 6 times a night. And when you finally start to go, it comes out in dribbles. What a joke! You wonder, "What kind of man am I? I can't even pee."

But your pee is not the only thing that falls flat... YOUR SEX LIFE TOO!

Erections come less frequently, and when they do, they don't stay hard for very long. Your wife or lover doesn't blame you out loud. But you can only imagine what she is thinking.

You wonder, "What happened to the man I use to be?"

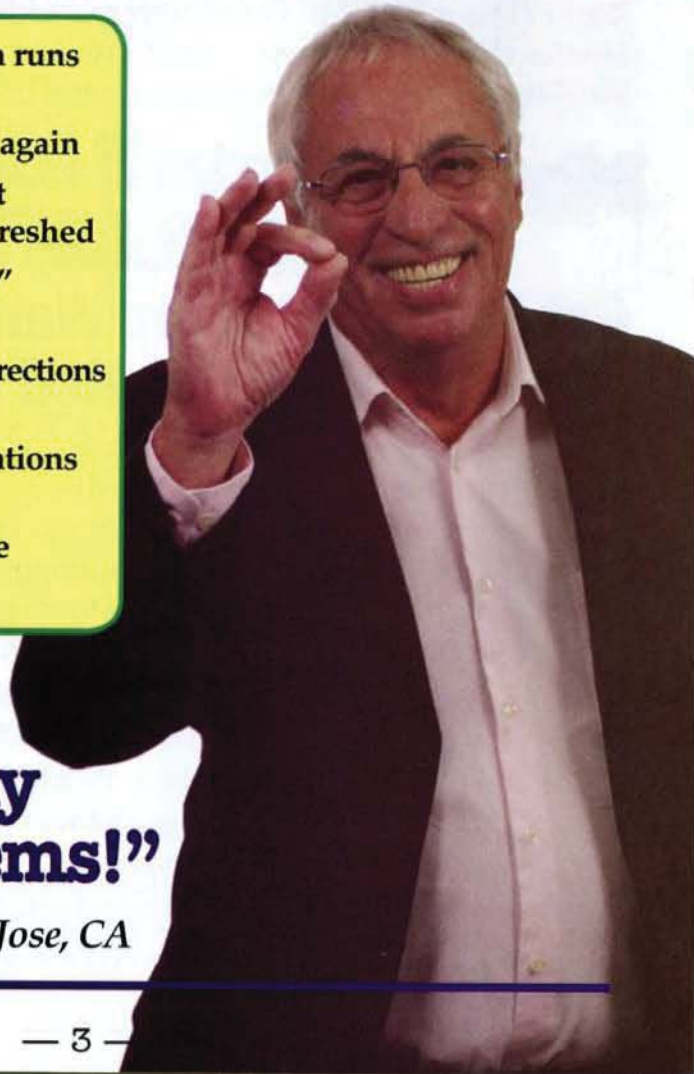

The truth is you are the same man. You can do everything you used to do. Age means nothing once you've got your prostate problems handled. There's no reason you can't maintain your sexual prowess and exude confidence at any age.

You've got to DO SOMETHING about these upstart intruders who have the audacity to mess with your prostate... and your masculinity.

- ✓ Put an end to bathroom runs 4-5 times a night
- ✓ Pee like an 18-year-old again
- ✓ Sleep restfully all night long... and wake up refreshed
- ✓ Get rid of the "gotta go" feeling for good
- ✓ Experience rock-hard erections and satisfying sex
- ✓ Eliminate painful urinations or dribbling
- ✓ Say goodbye to prostate problems for good

# Announcing a New Prostate Health Discovery: Three Pills a Day and Your Prostate Troubles are **GONE!**

Hi, I'm Leonard Haimes, MD, Medical Advisor, at The UniScience Group®. In my 32 years of medical practice I've been shocked by the number of men with prostate discomfort who are resigned to simply "grin and bear it."

I've partnered with the UniScience Group® to change all that. If you're having difficulty urinating, and feel like you're falling apart as a man, then I have something very important to share with you. It's a breakthrough discovery that's helping men over 40.

It's the difference between night and day. Three pills a day and your symptoms are GONE. And it all happens in about two weeks.

If you've tried prostate formulas before, and they haven't worked for you, then try again. This prostate health discovery is NEW AND DIFFERENT.

Saw Palmetto, the main component of most prostate supplements, may help a little. But most don't contain enough of the right stuff to completely eliminate your prostate troubles. The amazing prostate health discovery I'm going to introduce you to today, is **3,000 times stronger** than Saw Palmetto!

It quickly eliminates every trace of prostate problems, as I'll explain later in this report. And most important, there are dozens of medical studies that PROVE every word I say. Not just a few studies... this breakthrough has been proven over and over again in clinical trials.

## **The Same Technology That Doctors Use to Lower Cholesterol is Eliminating Prostate Problems**

It's a remarkable prostate healing substance called *beta-sitosterol*.

Beta-sitosterol is a phytosterol. These are the substances in plants that give them such amazing healing power. In short, beta-sitosterol is very good for you. How?

For one thing it lowers cholesterol. 30 years of medical research has proven that beta-sitosterol blocks the absorption of cholesterol from the gut as much as 50%.<sup>1, 2, 3</sup>

We get some beta-sitosterol every day from the vegetables we eat. But we don't get nearly enough to make a difference.

By isolating and concentrating beta-sitosterol, medical researchers were able to significantly improve prostate function.<sup>4</sup> And these studies prove it...

### **Science Proves Over and Over That Beta-Sitosterol Works**

One of the most important and well done studies on prostate health ever published was reported in 1995 in *The Lancet*. 200 patients with enlarged prostates were treated with either 20 mg of beta-sitosterol or a placebo for an entire year. The patients taking beta-sitosterol experienced a marked improvement in symptoms.<sup>5</sup>

Another study reported in the *International Journal of Immunopharmacol*, proved that beta-sitosterol was safe and highly effective... improving symptoms the first month.<sup>6</sup>

Doctors at the Veterans Administration in Minneapolis<sup>7</sup> compared beta-sitosterol to a host of other supplements, and concluded that beta-sitosterol had the "greatest efficacy." In plain English that means it beats every prostate therapy they examined in 30 years of research.

Double-blind studies on men at the University of Rome<sup>8</sup> and the University of Dresden<sup>9</sup> reported significant improvement. St. Luke's Hospital<sup>10</sup> found beta-sitosterol to be the most promising of all herbal therapies.

Studies published in *European Urology* and *British Journal of Urology* showed that patients with enlarged prostates who took beta-sitosterol experienced a "marked improvement" in symptoms.<sup>4</sup>

Clinical trials have proven over and over that beta-sitosterol provides relief from urinary problems, and increased urine flow, with few side effects.

## Why You Have Never Heard of Beta-Sitosterol Before

Medical journal studies date back 50 years, yet most people, not even doctors, have ever heard of beta-sitosterol. Why can something that has been studied so thoroughly and proven so conclusively remain outside public knowledge?

The answer may shock you. The truth is that Western doctors aren't taught about the healing properties of natural remedies in medical school, only how to prescribe dangerous drugs. Big Pharma and mainstream medical authorities really don't *want* you to know about powerful natural remedies because they can't make any money on them.

In fact, not only will they routinely ignore natural alternative health breakthroughs, but the more powerful concerns (think big drug companies) will even quash news about treatments that aren't outrageously expensive and profitable. In the minds of most doctors, if a major pharmaceutical company doesn't make it, *it doesn't exist*.

But, as I've shown, it *does* exist. And it has been proven over and over to eliminate prostate problems. The good news is *that it works*—even for men who have had little success with other supplements.

### **Revolutionary Formula Containing a High Concentration of Beta-Sitosterol Restores Youthful Prostate Functioning to Men of Any Age**

Thanks to a revolutionary new formula developed by the UniScience Group®, you get a high concentration of beta-sitosterol to help restore youthful prostate functioning in men of any age... less urgency, fewer nighttime trips to the bathroom, more restful sleep, better erections, no more burning, dribbling or pain.

This carefully balanced formula contains 11 prostate-healing nutrients in just the right proportions to eliminate all symptoms of prostate enlargement in as little as two weeks. It's called **Pros-TEROL™**.

It's chock full of prostate-enhancing phytosterols including 600mg of beta-sitosterol, 150 mg of campesterol, 135mg of stigmasterol, 15 mg of brassicasterol, plus a host of other nutrients that are proven to bring relief to men suffering from problems associated with an enlarged prostate.

Prostate relief that is safe, effective and bioavailable. **Pros-TEROL™** includes 15mg of a powerful new technology, Bioperine® that makes it a breeze for your body to absorb the active nutrients, and reap the full benefits.<sup>24</sup>

Clinical studies proved that when participants took Bioperine® along with nutrients, the absorption rate increased dramatically. With Bioperine® present, you get the full power of **Pros-TEROL™** to create a healthy, youthful functioning prostate in as few as 14 days.

But **Pros-TEROL™** does much more than eliminate your prostate symptoms... It helps restore your masculinity by fighting off your prostate's biggest enemies... — 6 —

## ■ PROSTATE ENEMY #1: 5-Alpha Reductase — The Prostate Enlarger

5-alpha reductase is an enzyme with the sole purpose of making your prostate grow larger. When you enter puberty, it's 5-alpha reductase that makes your prostate grow. That's a good thing. Then it lies dormant until age 40. Then all hell breaks loose...

Swollen Prostate  
**OUCH!**

**Pros-TEROL™**  
Shrinks Prostate  
and Opens Blocked  
Passage FAST!

As if on cue, your body starts producing large amounts of it again. It wages a full scale assault on your prostate, sending out signals for your prostate to grow bigger, much bigger than normal — it almost doubles in size. OUCH! The prostate squeezes your urethra.

Urine has a hard time getting through the small opening. And then... (next page)

## Pros-TEROL™ Includes My “BIG ELEVEN” Nutrients that Protect Your *Sexual* *POWERHOUSE* from Future Attacks!

**I**n addition to beta-sitosterol, I've added *eleven additional* prostate-fortifying nutrients to my Pros-TEROL™ formula to ensure your prostate stays strong and healthy. Introducing my “BIG ELEVEN” prostate-enhancing nutrients...

**1 Zinc — The “Manhood Mineral”** If you're a man, you need zinc... and lots of it. In fact, your prostate uses 10 times more zinc than any other organ in your body... Why?

Because you release zinc every time you ejaculate. Zinc is also instrumental in making sex hormones. You need zinc to have sex.

And studies prove that zinc stops the enzyme 5-alpha reductase from making your prostate swell. The Center for Reproductive Science and Technology in Missouri found that zinc slowed down 5-alpha activity and reduced the prostate weight of patients treated.<sup>13</sup>

As you age, your male body may have trouble absorbing enough zinc. That's why Pros-TEROL™ contains 25mg of zinc-arginate, the “chelated” form of zinc that's easily assimilated by men of any age.<sup>25</sup>

**2 Lycopene — The “FREE Radical Warrior”** Another vital component, lycopene, is proven in studies to shrink swollen prostate. In a double-blind experiment, Dr. Omer Kucuk, of the Karmanos Cancer Institute in Detroit, found that prostate patients treated with lycopene had smaller prostates than the

you find yourself in a world of hurt... living the restricted life of someone who has to stay within dashing distance of a bathroom. Keeping you up at night and putting a real damper on your sex life.

But that's only the beginning of the assault on your masculinity... 5-alpha reductase sucks up **FREE** testosterone at an alarming rate. Testosterone is the stuff that makes you a man.

You need free testosterone for just about everything... sexual desire, deep voice, stamina (sexual and otherwise), and muscle mass. Without enough of it, you gain weight, lose muscle, forget things, tire easily and lose the feeling of well-being.

(over, please)

control group not treated with lycopene.<sup>14</sup>

And when it comes to your prostate gland, *smaller is definitely better!*

Lycopene is also a proven antioxidant that neutralizes **FREE** radical damage to the DNA in prostate cells.

In a six-year study by Harvard Medical School, the diets of more than 47,000 men were studied. The results proved that men who eat tomato products that contain large quantities of lycopene had up to 45% less likelihood of serious prostate problems.<sup>11</sup>

Lycopene acts fast to heal an ailing prostate. Many reported significant improvements in as little as two weeks. **Pros-TEROL™** will protect your prostate with a daily 50mg dose of lycopene.

**3 Quercetin — Relief For “Hard-to-Treat” Prostate Problems** Quercetin is a powerful anti-oxidant that fights **FREE** radicals that cause aging. It is the most promising supplement yet for hard-to-treat prostate problems. The renowned Mayo Clinic is currently conducting extensive research on the effectiveness of quercetin in relieving prostate disorders.<sup>15</sup> **Pros-TEROL™** is packed with 50mg of quercetin.

**4 Nettle Root Extract — “Pee” Like an 18 Year Old** According to medical studies, this extract blocks the DHT receptor in the prostate, causing it to shrink in size. It also improves urinary flow, and helps support good residual levels, so you can empty

your bladder fully... and you don't feel the urge to urinate so often.<sup>12,16</sup> **Pros-TEROL™** gives you a generous 50mg of nettle root extract daily.

**5 Pumpkin Seed Extract — Strong Flow and No More Painful Urination.** This extract contains powerful phytosterols, including beta-sitosterol, that have been proven to stop 5-alpha reductase from depleting you of **FREE** testosterone and making your prostate grow.

A study conducted by Semmelweis University Medical School in Budapest, Hungary, showed that more than 80% of the patients treated with pumpkin seed extract experienced improved bladder function. Urinary flow was stronger. Patients reported

(continued on page 10)

But 5-alpha reductase is working 24/7 to steal it away...

The only way to win is to confront this enemy head on... with **Pros-TEROL™**. The proprietary beta-sitosterol complex in our formula stops 5-alpha reductase right in its tracks. In the presence of large quantities of beta-sitosterol in your blood stream, 5-alpha reductase cannot gobble up free testosterone. And it can't cause your prostate to enlarge.

Within weeks your prostate starts functioning normally again. And there's more **FREE** testosterone available to make you feel like a man again. That is as long as you defeat the second major enemy of your prostate...

## ■ PROSTATE ENEMY #2: *Aromatase — The Testosterone Attacker*

The aromatase enzyme is another dangerous invader. It's hell-bent on hunting down **FREE** testosterone in your body, and converting it into the most potent form of female hormone — **ESTROGEN!** Your testosterone plunges and your estrogen soars. **YIKES!**

(continued from page 9)

a reduction in night time bathroom trips... and much needed relief from painful urination.<sup>19</sup> **Pros-TEROL™** gives you 50mg per day of pumpkin seed extract.<sup>20</sup>

**6 Vitamin B6 — The Prostate Enemy Slayer** This is another vital nutrient that helps put 5-alpha reductase in its place... stopping it from soaking up testosterone, and forcing your prostate to grow bigger than it should. It also helps to fight off the huge over-production of female hormone, estrogen, caused by aromatase. **Pros-TEROL™** contains 15mg of Vitamin B6.

**7 Copper — For Balancing Zinc** Zinc can reduce the absorption of copper in the body. I've added 2mg of copper to **Pros-TEROL™** to maintain the proper balance between zinc and copper. Adequate copper intake is thought to be significant for maintaining prostate health.<sup>19</sup>

**8 Ginger Root Extract — The Prostate Cleanser and Toner** This health-giving nutrient has been used for centuries as an overall body tonic. It strengthens the prostate, and has been found to reduce the frequent urge to urinate.<sup>20</sup> **Pros-TEROL™** provides you with 25mg of ginger root extract every day.

**9 Licorice Root Extract —** This natural remedy with curative powers recognized for over 1,000 years, has been found to reduce inflammation in the prostate... often the precursor of serious prostate problems. Dr. M. Rafi, a research scientist at Rutgers

Cook College, found that dietary supplements made from licorice root stopped the growth of prostate cancer cells.<sup>21</sup> **Pros-TEROL™** contains 25mg of this natural medicine.

**10 Soy Isoflavones — The Asian Men's Secret to Prostate Health** The incidence of prostate cancer is lowest among Asian men. Many researchers think the reason is Asian men's high consumption of soy. Now a landmark study reveals that the increased intake of soy isoflavones "*significantly reduced the risk of prostate cancer among Japanese men by as much as 50%.*" Studies show that soy isoflavones slowed mutant cell growth in the prostate.<sup>22</sup> **Pros-TEROL™** delivers a full 100mg of soy isoflavones daily.

**"60% of prostate surgery patients left impotent."**

— *Journal of the American Medical Association*  
Recently, CNN's medical correspondent Dr. Steve Salvatore shocked many men scheduled for prostate surgery. He quoted the prestigious *Journal of the American Medical Association* as reporting that almost 60% of prostate surgery patients are left impotent.<sup>23</sup>

Pros-TEROL™ provides 405mg of the three critical amino acids: L-Glycine, L-Alanine, and L-Glutamic Acid. Most other brands only contain 100mg.

My "BIG ELEVEN" nutrients plus prostate-enhancing phytosterols make Pros-TEROL™ the most effective prostate product on the market.

It has been proven to be extremely effective in alleviating prostate problems... eliminating urgency, fewer nighttime trips to the bathroom, more restful sleep, better erections, increased libido and sexual stamina, no more burning or dribbling... and a better overall quality of life.

Not a day goes by that I don't receive a card or letter from men like you thanking me for Pros-TEROL™. It excites me to receive the feedback from the many customers whose lives have changed for the better because of this marvelous prostate conditioning formula.

### ■ PROSTATE ENEMY #3: SHBG — *The Testosterone Binder*

Your testosterone suffers an additional insult when SHBG (sex hormone binding globulin) starts binding to whatever FREE testosterone it can find... reducing your testosterone even further.

That's why **Pros-TEROL™** includes one of the most powerful nutrients known for its ability to shut down SHBG... Our formula contains a generous 50mg dose of stinging nettle root extract. This improves your sexual health by leaving more precious FREE testosterone in your body.

Here is documented proof: A six-month double-blind clinical study performed by Dr. M. R. Safarinejad, found that 287 patients receiving stinging nettle root "*demonstrated significantly improved lower urinary tract symptoms compared to those receiving the placebo.*"<sup>12</sup>

As you can see, the powerful combination of ingredients in **Pros-TEROL™** soundly defeats the vicious enemies that attack your prostate, and restores prostate health. With urination problems gone and more FREE testosterone, you'll have increased libido, harder erections, and more sexual stamina.

## Treat Your Prostate Problems NOW — Before it's Too Late!

**I**f you're a man, and you're over 40, your prostate is under attack, whether you know it or not. Unchecked, it will only get worse. You may be feeling the effects already... urgency, and that awful feeling that you've got to go all the time... pushing and straining to start... weak flow... burning and dribbling... getting up many times every night to pee.

But that's just the beginning of your problems, if you don't DO SOMETHING about it. Over 400,000 men had prostate surgery last year, and it's GROWING. Believe me; you don't want to have prostate surgery. It's a horrible experience... and not always effective...

# A \$1 per Day "Insurance Policy" to PROTECT Your Prostate... Is Your Manhood Worth it?

**T**ake Pros-TEROL™... and get your prostate problems under control NOW. Make your prostate healthy and youthful again. Your symptoms will disappear; you'll feel renewed sexual desire and vigor. And, you'll be less likely to ever have to deal with serious problems later.

More than 400,000 men had prostate surgery last year at a cost of more than \$3 BILLION. Researchers estimate that 35% of these patients experience dreadful complications, including impotence and in extreme cases, even death. That's an astronomical cost, and completely *unnecessary*...

For just \$1 per day you can have an "insurance policy" to keep your prostate out of harms way. That's all it takes to have the full force of Pros-TEROL's™ breakthrough nutritional formula protecting and rejuvenating your prostate every single day for the rest of your life.

With these three simple and affordable pills... You can get rid of all the irritating symptoms. You can restore your sexual prowess, libido and youthful stamina. You can get your male swagger back, and you can feel like you're a man to be reckoned with... a man that's still IN THE GAME.

Plus you'll have the peace of mind of knowing that you are protecting yourself from the serious consequences of prostate problems that go unchecked.

In a minute I'll tell you about an introductory offer that will enable you to sample this amazing formula for one full year — RISK FREE. So you can see for yourself the amazing revitalizing effect Pros-TEROL™ will have on your prostate health and your quality of life.

***"More than 80% of the patients experienced improved bladder function."***

Remember, the statements I've made about Pros-TEROL™ are not my opinion. They are medical truths. Based on hundreds of medical research studies over 50 years, hundreds of thousands of men have completely eliminated prostate problems by taking these breakthrough nutrients.

And so will you.

But I know this natural formula is so new, so different, so easy, and so remarkable in its promised results that I cannot expect you to take my word for it. Therefore, I ask you to prove or disprove it, entirely at my risk...

# **“Now waking up to erections. Only taking for TWO WEEKS.”**

**Y**ou don't have to lose control of your urinary system, and lose the ability to get erections. Men have the potential to be virile, and youthful at any age... and even father children into their 70s or 80s.

You can maintain your sexual prowess, and exude confidence throughout your life. But in order to do so, you've got to get your prostate under control. With **Pros-TEROL™** working for you, you can be youthful, virile and **IN THE GAME** at any age!

*(continued from page 12)*

...60% of all prostate surgery patients are left impotent<sup>25</sup>, and unable to perform sexually ever again... And many lose control of their bladders.

What a horrible way to end up — embarrassing leakage, dripping and stained clothing... no erections ever, and not being able to enjoy intimacy with your wife or lover again... maybe even a broken marriage. That's bad. But it can get even worse...

30,000 men actually died from prostate cancer last year. In fact, prostate cancer is the second leading cause of death in males. Prostate cancer can strike at any age. But it's usually preceded by a swollen and inflamed prostate.

As you can see, if you don't treat them, your prostate problems will get worse, gradually robbing you of your health, your sexuality, your sleep... and ultimately your life itself!

But it doesn't have to be this way...

## **When it Comes to Your Prostate Health... Don't Take Any Chances!**

Every day, dangerous enemies are engaged in a full frontal assault on your prostate...

... **depleting your testosterone, and causing your prostate to swell up and get inflamed... making you miserable... interfering with your sexual performance... and eventually leading to serious illness.**

But now, with **Pros-TEROL™**, you have a proven weapon to fight back, and deter these unwanted intruders.

**Pros-TEROL™** will immediately alleviate your prostate problems. That's a promise. And, as a wise man once said, *"If one never has a mild illness, then a serious disease will never develop."*

# Within 14 Days — Say **GOODBYE**

Meet some of the men  
who are saying goodbye  
to prostate problems  
and feeling like they're  
back **IN THE GAME** again...

James B. from Dracut, MA was having trouble  
getting and keeping erections, and now in only  
two weeks he's...

## **"Waking up with erections."**

"Was having trouble getting and  
keeping erections. Now waking up  
to erections. Think this product is  
great. Only taking for two weeks."

No more nighttime bathroom runs for  
Charles M. of Portsmouth, OH

## **"I haven't had to get up until morning."**

"I have been taking **Pros-TEROL™** almost a month  
and I haven't been getting up more than once a  
night. The last few days I haven't had to get up  
'til morning."

Wayne L. who writes from Okemah, OK says...

## **"I go so much easier."**

"I've been taking **Pros-TEROL™** for the last three  
weeks and I can really feel the difference. Before  
I had to go to the bathroom in the middle of the  
night and I'd have a long wait before I could  
start urinating — now I don't have that long a  
wait. I go much easier now."

Joe R. from Traverse City, MI is thrilled because...

## **"I urinate only once a night."**

"After taking **Pros-TEROL™**, I urinate only once  
instead of 4 or 5 times a night.  
Also I have more energy."

Robert D. from Baltimore, MD  
who tried another product, reported  
instant relief from symptoms...

## **"Pros-TEROL™ is a better product."**

"It had a better overall effect. Less urge to  
urinate, a better flow when urinating.  
No burning."

Ronald T. from Ajo, AZ who was frustrated by a weak urine flow, now reports...

## "My urine flow became stronger."

"Before using **Pros-TEROL™** my urine flow was a little weak. After using **Pros-TEROL™** my urine flow became stronger."

Ronald C. from San Jose, CA reported marked improvement...

## "I recommend it to anyone who has prostate problems."

"Your **Pros-TEROL™** caplets did indeed improve my urinary problem especially at night."

Don C. of Sun City West, AZ tested Pros-TEROL™ against his other prostate supplement, and Pros-TEROL™ got the results he wanted...

## "Fewer incidents of dribbling."

"I used the 30-day supply of **Pros-TEROL™** and had the following results: **a)** The thin stream improved. **b)** Fewer incidents of dribbling. Then I returned to my previous prostate health product and **a)** The thin stream returned. **b)** So did the incidence of dribbling."

Rick K. from Seward, NE reported relief from all his prostate symptoms...

## "I used to have pain in my groin, that now is gone."

"There are many things I like about your product. 1) I don't have trouble getting started when I go to the bathroom. 2) I have a much stronger stream. 3) I use to get up at least three times a night to go to the bathroom, now only one time and sometimes not at all. 4) I use to have some pain in my groin area, that is now gone. Thank you!"

Jeffrey O. from Beattyville KY noticed improvements right away...

## "After I took 10 pills it started helping me."

"I urinate a lot better than I did. I used to have to wait a while before I could urinate. Now I don't have to wait. I think your product is really good and it helped me with my problem."
