Scientists Have Discovered:

The dirty little sinus secret...

The REAL CAUSE of never-ending nasal misery is not your sinuses...IT'S WHAT'S HIDING IN YOUR MUCUS!

Mounting research shows that **DRIED-UP MUCUS PACKS brimming with toxins** may be the real culprit behind your clogged nose, agonizing sinus pressure, and endless nasal suffering!

Now one sinus-clearing secret dissolves the mess and lets you **BREATHE BLISSFULLY FREE!**

It's so effective; tens of thousands of sinus sufferers report life-changing relief!

See how inside!

SHOCKING NEWS:

The MAYO CLINIC says fungus found in mucus in 96% of sinus sufferers... **Story Page 3.**

SPECIAL REPORT FROM DR. DENNIS CLARK

If you've tried every sinus remedy out there, but your nasal woes keep coming back, **PLEASE READ THIS SPECIAL BULLETIN!**

Sinus-Clearing Secret Dissolves the Embedded Mucus that's Making You Miserable!

Scientists have uncovered that the master key to blissful, lasting sinus relief is *hidden in your mucus.*

Learn how you can use the SINUS-CLEARING SECRET to breathe free and clear now and every day!

It sounds disgusting, but it may be the **BEST NEWS OF YOUR LIFE** if you're one of the millions who suffer with recurring nasal nightmares.

Growing evidence shows that **DRIED-UP MUCUS PACKS**—that attract and trap unhealthy invaders—may be the very reason your sinus misery keeps coming back *over and over again.*

The eternally clogged-up nose...nasty mucus dripping down your throat... awful pounding pressure in your face... thick morning mucus... embarrassing chronic throat clearing...endless doctor visits.

These and so many other nasal symptoms are linked to dry, embedded mucus—not your sinus tissues! That's why remedies like "drying out" your sinuses or shrinking your nasal ways *just don't help...*and can even make matters worse!

And while steam showers, rinses, and neti pots can feel good and may offer some relief, before you know it, you're clogged, congested, and swallowing nasty mucus drainage again!

There have been no good answers... **UNTIL NOW!**

Disgusting discovery may be your SINUS MIRACLE...

Thanks to new insight about mucus itself, there's now an honest-to-goodness breakthrough that can help stop the cycle of sinus misery—even if you've been stuck in it for decades!

This isn't just my opinion as a researcher who's seen the hard science; thousands of sinus sufferers who've been helped PROVE IT! (Check out just some of their stories on page 14).

In the pages ahead you'll see through scientific fact why this sinus remedy works when so many other "solutions" have failed! You'll discover how it...

- ▶ Relieves endless nasal congestion and clogged sinuses!
- ▶ Stops sinus draining and dripping mucus!
- ▶ Eases agonizing sinus pressure and that "heavy" face feeling!
- ▶ Helps you sleep soundly (no clogged nose to ruin your ZZZZs)!
- ▶ Prevents thick, morning mucus!
- ▶ Puts an end to embarrassing bad breath or chronic throat clearing!

Ever wonder
why your sinus
trouble
keeps coming
back over and over
again

?

This is just the beginning! You'll also see how it can help you relieve everything from a dry, hacking cough to a nose that runs like a faucet! You will *breathe easier than you have in years!*

Turn the page and learn how to use the sinus-clearing secret for yourself!

**The MAYO CLINIC says 96%
of sinus sufferers have
FUNGUS in their nose!**

We have long known that good and bad bacteria live in your mucus—but experts now believe that fungus has taken up residence...in a big way!

Fungus was thought to be involved in less than 10% of sinus cases. Now, a groundbreaking Mayo Clinic study indicates fungus is a culprit of problems in nearly all sinus sufferers.

The researchers used new methods of collecting and testing mucus from the nose, and they discovered fungus in 96 percent of the patients' mucus!

Clear the Toxic Gunk from Your Sinuses

And Get Genuine Relief that Lasts!

Now that researchers have discovered the key to clear sinuses lies in your mucus, people everywhere are getting the kind of relief they never thought possible...**AND SO CAN YOU!**

It all begins with a secret weapon virtually unheard of by sinus sufferers, until now

Lego removed from boy's nose was covered in FUNGUS!

Over the past three years the parents of 6-year-old boy from Salt Lake City had been taking their son to the doctor trying to figure out why their son struggled with breathing. At night in bed the boy often gasped for air.

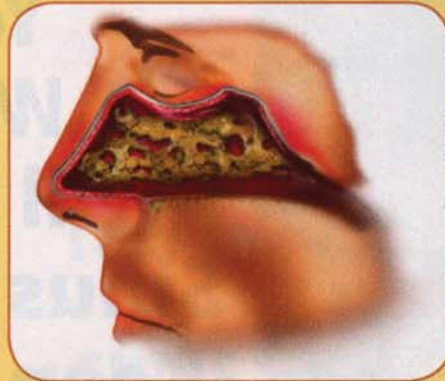

Pediatricians repeatedly prescribed antibiotics to no avail until one wise doctor figured out that something was stuck in the boy's nose. They pulled a Lego wheel from the boy's nostril—it had been lodged in his sinuses for years. **The plastic piece was encased in fungus!**

Once the Lego was removed, the 6-year old was a new kid. He's breathing easier and sleeping more hours. He's bounding with energy and has a ravenous appetite.

The lesson here? Don't put Legos in your nose—and remember, your nose is a breeding ground for fungus!

You **CAN'T**, **WON'T**, and Will **NEVER** Solve Sinus Trouble if You Keep Doing **THIS...**

It seems logical.... just dry up all the extra mucus. **WRONG!** Decongestants and antihistamines may stop your nose from running or help you breathe through your clogged nose—but it's temporary relief at best. In the end, this drying effect is the exact **OPPOSITE** of what you need!

You see, when your sinuses get too dry, it not only makes your nose irritated and tender; it triggers your body to produce even more mucus! And the extra mucus turns into the gunk that gets trapped in your sinuses. You wind up with even more congestion, and the nightmarish cycle begins again!

THE TRUTH...

Your body *needs* mucus as much as you need air to breathe!

Clear, healthy, slippery mucus plays a major role in your health. It moistens your sinuses and keeps them clean. Healthy mucus allows soothing, warm air to flow easily through your nose and down to your lungs... like lubricating oil that keeps your respiratory system running.

Mucus is also one of the most important players of your immune system. It helps trap and block out unhealthy particles—like bacteria, viruses, and even dust—all of which attempt to enter your nose on a daily basis. *In fact, 90% of unhealthy invaders enter your body through your nose!*

Bottom line—you do **NOT** want to dry up your mucus. But there's even more to it...

The OTHER big sinus mistake people make...

Maybe you believe the answer to sinus relief is about shrinking swollen sinus tissue. Heck, every ad on TV seems to tell you this. But this common belief is flat out wrong! Yes, sinuses can get swollen and irritated, but again it's what the mucus does to your sinuses that cause all the trouble.

Sinuses are just not designed well—probably the worst design in the human body. For some unknown reason, our sinus openings (called the ostia) are *ridiculously tiny*—no bigger than the size of a pin head.

So your sinuses are easily blocked by too much mucus, or mucus that's too dry or sticky. That's why trying to shrink your sinuses to get some relief rarely helps. You need to go after the real issue—the toxic, sticky mucus!

THE ANSWER on next page...How to use *Flora Sinus* to solve your congestion, post nasal drip, and pounding sinus pressure when everything else has failed! ➔

"TOP TREATMENT" FAILS SINUS TEST!

New study shows that doctor's "go to" doesn't clear up blocked sinuses any better than placebo!

A new study finds that commonly prescribed treatments do not clear up sinuses any better than your body does on its own. According to new findings in the *Journal of the American Medical Association*, people with trademark signs of acute sinus trouble (yucky drainage, facial pressure, aching teeth, congestion and pain) overall FARED NO BETTER WITH ANTIBIOTICS than did people getting placebo pills, scientists at Washington University in St. Louis report.

Nature's Mucus Dissolving Miracle...

A growing number of experts believe that NAC (N-Acetyl-Cysteine) may be the answer millions of sinus sufferers have been searching for! It's an unusual type of "super nutrient"...a powerful amino acid, antioxidant, and potent detoxifier all rolled into one.

A life-giving staple in hospitals!

NAC is not only used in natural medicine to help a variety of health problems, it's also relied on in conventional medicine. NAC is used by doctors because of its rare ability clear out extra mucus in lung patients, and because it boosts the liver's detoxifying power in critical situations

You'd be hard pressed to find any leading hospital without ample supplies of NAC. *It's just that important.*

So how did NAC become the new secret weapon for sinus sufferers?

It all began when a team of savvy scientists did what nobody else has ever done—they got a close up look at misery-causing mucus.

You see, it's just plain hard to study snot. You can't really analyze it while *it's in the nose*, and it's hard to get through tiny sinus openings to collect the stuff. It's even harder to get enough of it to study it accurately.

That's why for decades only a few studies were done on mucus-dissolving solutions.

Scientists finally got a close up look at toxic snot...

The NAC sinus breakthrough started to unfold when a team of Korean scientists found a way to collect mucus from sinuses and nasal passages. They used middle-ear fluid collectors to actually draw out the mucus from real patients.

Then these scientists preserved the mucus and were able to reconstitute it into the same thick, nasal goo that caused all the trouble. Only then could they truly investigate real solutions.

They tested four different "mucolytic agents" (solvents known to break up mucus), directly on the thick mucus samples. One of the compounds tested was, *you guessed it*, NAC.

Astonishing results!

While three of the agents performed ok, the results of NAC blew these hard-nosed scientists away...

- ▶ NAC worked with stunning speed—in just 30 minutes the thick, sticky mucus began to dissolve!
- ▶ Then in just one hour, the mucus was flowing easily, with the effect lasting four hours.

Also, when compared to untreated mucus, the NAC:

- ▶ Improved mucus slipperiness by up to 45 percent for better flow!
- ▶ Reduced stickiness by up to 30 percent!

Why does thick, gooey mucus respond so well to NAC? Because NAC actually breaks apart the glue-like strands that hold mucus together. Called *disulfide bonds*, these mucus strands are so tightly woven together they have the characteristics of thick glue.

And NAC is one of the only substances ever found to dissolve the super sticky bonds!

Finally, sinus relief that LASTS...

Flora Sinus gives you the same research levels of NAC proven to dissolve embedded, sticky mucus. That's why it delivers such amazing fast and lasting results, even for people who have suffered for years with recurring sinus trouble!

NAC doesn't simply dry up mucus, it turns the sticky, thick toxic stuff into healthy mucus and keeps it flowing normally—not too fast, not too slow. There's nothing I've ever seen that works like NAC. And the proof's not only on lab slides, just check this out...

**86.6% of sinus patients
said they were
"IMPROVED" or "CURED!"**

In a fascinating human study, NAC was compared to a leading herbal sinus product used throughout Germany. In this randomized, open-label study, a full 86.8% of sinus patients who took NAC reported they were "improved" or "cured." These participants took the same amount of NAC (600 mg per day) as in *Flora Sinus*.

But there's even more to NAC...

**With Research
Levels of NAC!**

(Please turn...)

A Detoxifying Powerhouse, too...

While **Flora Sinus** contains NAC for its unique ability to dissolve thick, unhealthy mucus, there's something else that makes it work like magic. NAC is also a natural detoxifying powerhouse!

Remember, all that trapped mucus that's causing you such misery is also brimming with fungus, bacteria, and other unhealthy invaders. I'm convinced that NAC's detoxifying power is yet another reason **Flora Sinus** works so well. Here's why...

NAC is one of the only solutions in existence that increases your levels of glutathione—your body's "master antioxidant." It's called this because glutathione has the rare ability to boost the activity of all other antioxidants in your body, like vitamins C and E, CoQ10, alpha lipoic acid, and even the fruits and veggies you eat!

Boost your liver...help your sinuses!

Your liver needs lots of glutathione to keep it working at peak levels. And well documented research shows that supplementing with NAC can help raise glutathione levels, which in turn supports the natural detoxification power of your liver.

What does all this have to do with your sinuses? One of the best ways to fight those unhealthy toxins in your mucus is a healthy, well-functioning liver! It's just another reason you get research levels of NAC in **Flora Sinus**!

Take a wonderful deep breath...

**Flora Sinus improves your
LUNG HEALTH, too!**

Researchers looked at the results of nine different clinical trials with over 2,000 participants who took NAC over a 6-month period (the dosages ranged from 300 mg to 1,200 mg a day).

They concluded that NAC promoted lung health and even helped prevent lung episodes by 23 percent—in other words, easier, clearer, healthier breathing. Another great benefit of taking **Flora Sinus**!

It's Like Trying to Sweep Glue with a Broom...

Thick, unhealthy mucus is virtually like glue. That's why blowing your nose can feel impossible at times. One of the little-known ways to help is to make sure your *cilia* can do its job.

Not to be confused with nose hair, cilia are microscopic cellular strands found in your nasal cavity and sinuses. Though practically invisible to the naked eye, cilia have a big, big job. They continually work with mucus to help trap and sweep the bad stuff out of your sinuses.

Are your sinus sweepers too gummed-up to clean?

Cilia act like tiny push brooms to push along and move out the mucus that contains bacteria, viruses, pollen, dust, and other pollutants. The cilia in your nasal passages also help trap irritants as they enter...*before* they get into your sinuses and start wreaking havoc.

Here's the problem—if the mucus is too thick, the cilia can't do its job. It becomes thick and encrusted with mucus, virtually freezing in place. **Flora Sinus** helps cilia work by keeping the mucus thin and normal so these tiny hairs can move the gunk out!

Flora Sinus saves your sinuses in 3 key ways:

1. Keeps your **MUCUS** thin, healthy, and flowing normally
2. Keeps your **OSTIA** open and unclogged
3. Keeps your **CILIA** sweeping out the toxic mucus

You may not like the way these little hairs look when you see them sprouting from your nose, but you should never get rid of them altogether.

You need nose hairs to help block the bigger invaders that try to make their way in!

You're Not Imagining It— Sinus Pressure is Agonizing...

There's nothing quite like it...the relentless throbbing in your face. Maybe it's your entire forehead, maybe it's behind one eye; but one thing's for sure, sinus pain can be ruthless.

It's not just the piercing feeling; it's the awful cotton-headed feeling that makes it hard to think straight. If you've been there, you know how it can take over everything in your day.

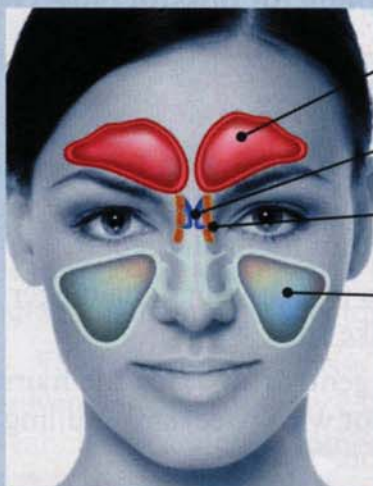

In fact, one HARVARD STUDY Says...

"Sinus sufferers report the highest level of pain and lowest level of social functioning."

When comparing the impact of long term sinus trouble with that of other chronic health issues, Harvard researchers found that sinus sufferers reported the highest level of pain and lowest level of social functioning—as well as significant problems with work, energy and mental health.

Once again, you can blame the stagnant packs of mucus for causing all the irritation, swelling, and pressure! You see, there are four different pairs of sinus cavities in and around your eyes and nose. Each area is extremely vulnerable to pain and pressure.

You Have Four Sets of Sinus Cavities That Can Make You **HURT**

The only way to get REAL RELIEF from pounding sinuses...

You can have just one area that hurts—that knife-like feeling—or a general throbbing when all four pairs of sinuses are under attack. But no matter where you feel it, the answer is the same. You need to dissolve the mucus packs and keep sinuses clear day after day.

Flora Sinus is a life saver because it gets to the root cause of agonizing sinus pressure by breaking up the encrusted mucus. It's no surprise that thousands of sinus sufferers report phenomenal relief from pressure and pounding soon after they start taking **Flora Sinus**.

MOUTH BREATHERS BEWARE...

It's Not Just Snoring You Need to Worry About!

When you're constantly battling clogged sinuses, you tend to become a mouth breather. This alone is one of the biggest causes of snoring. We all know that snoring can ruin your sleep, not to mention the toll it takes on your relationships.

Plus, mouth breathing is notorious for causing dry mouth, bad breath, and even painful dry, cracked lips. There's just no good that can come from it!

But there's more to it than snoring, drooling, and bad breath...

When you breathe only through your mouth, you lose carbon dioxide too fast. This triggers a chain of reactions you don't want...

- You absorb **LESS OXYGEN** in your lungs
- You get **TIRED** more easily.
- Blood vessels can **CONSTRICT**
- It can even stimulate your cells to **PRODUCE MORE MUCUS!**

The key is to get those sinuses open and clear—and keep them that way! By taking **Flora Sinus** every day, I can guarantee that you will become a much healthier, more pleasant nose breather! Just try it and see!

Are You "Sleep Slobbering?"

If you're a mouth breather due to congestion, the answer is probably YES. The medical term for sleep slobbering is *sialorrhea*, the act of salivating during sleep. While not necessarily dangerous, excessive drooling can disrupt your sleep and be embarrassing if you share a bed.

A Probiotic for Your *Nose*? **You bet!**

These days, you've probably either heard of probiotics or tried them yourself. Probiotics are the "good" bacteria praised for their ability to improve digestive troubles, support urinary health, and shore up your immune system.

Probiotics are everywhere these days...in digestion supplements, yogurts, and even foods like juices and nutrition drinks have started adding them.

But what most people don't know is that probiotics can be a virtual game-changer if you're battling recurring sinus trouble, including issues caused by seasonal sensitivities.

An open invitation for sinus misery...

It is a well-known fact that probiotics can support your immune system, which works throughout your entire body to keep you healthy and strong. So if there's an issue in your nose, certain probiotics can help in that area, too.

The trouble starts when the "bad" bacteria makes its way in your nose and gets settled in... an open invitation for on-going sinus misery. You need to get your immune system geared up and ready for battle. That's the real answer to lasting relief from bad bacteria in your sinuses. But it's not that simple...

You need the right probiotic when it comes to sinuses...

Here's where it gets tricky—there are a dizzying array of probiotics and each works a bit differently. That's why decades of

But never before has research pinpointed flora for the sinuses—UNTIL NOW!

For the first time ever, a **landmark clinical study by Swiss researchers** found that four different probiotics taken orally actually specifically targeted and supported nasal passages and a healthy immune response in mucus.

Four amazing nasal probiotics... Identified for the first time ever!

1. *Bifidobacterium bifidum*
2. *Lactobacillus rhamnosus*
3. *Lactobacillus acidophilus*
4. *Streptococcus thermophilus*

Based on the Swiss research, these scientists identified four probiotics that had never been combined in a sinus remedy before!

Flora Sinus gives you all four nasal super stars along with research levels of NAC. The result? A total sinus-saving powerhouse unlike anything out there today!

Great News for Seasonal Sufferers, too!

You may go months with a clear head and peaceful, clog-free nights, but as soon as the leaves turn color or the flowers start to bloom... *BAM*...sinus chaos begins!

You need fast relief, so you turn to quick remedies that dry up the mucus or you try something that attempts to block the triggers. But before you know it, you're stuck in the vicious cycle of sinus misery once again!

Whether your nasal trouble is triggered by the seasons or not, the most important thing you can do is keep your mucus flowing normally. Remember, extra mucus flow leads to dried-up mucus packs, which again produces even more mucus!

Flora Sinus is the ultimate nasal balancer...

It keeps mucus flowing normally—not too fast, not too slow. But there's even more to it. Researchers reviewed 12 clinical trials on the use of probiotics for seasonally triggered sinus issues. The results were phenomenal! They concluded that:

"Probiotics dramatically reduced the symptoms and severity of seasonal runny noses due to sinus problems."

So don't be surprised when your seasonal symptoms start to dwindle once you start taking *Flora Sinus* with its unique probiotic blend and NAC!

See page 27

"It's time to try a different way."

No matter how long you've suffered with nasal congestion, agonizing sinus pressure, or awful dripping mucus, *you can turn it all around*. You can put an end to embarrassing throat clearing, poor sleep, and endless doctor visits! All of it!

It's all about tackling the root cause of your nasal nightmares—not simply trying to dry up the mess! This means you need to deal with the real sinus culprits like dried-up mucus packs, fungus, and bad bacteria.

And that's what **Flora Sinus** is all about. With super potent NAC, it dissolves the unhealthy thick mucus starting as quickly as 30 minutes—and keeps it flowing normally. Plus, the special probiotic nasal blend in **Flora Sinus** keeps the good bacteria plentiful, crowing out the bad guys day after day. Nothing out there does all this!

invaders!**

Flora Sinus works in three key ways to keep your nose happy:

- Keeps your MUCUS thin, healthy, and flowing normally!
- Keeps your CILIA sweeping out the toxic mucus!
- Keeps your OSTIA open and unclogged!

“Thousands of sinus sufferers have found amazing relief and are breathing better than ever thanks to *Flora Sinus*. It works no matter how long you’ve suffered or what you’ve tried before. There’s nothing else like it!”

FREE GIFT #4 for FAST RESPONSE!

Undo Years of Stress and Transform Your Health!

Decades of research prove that over-time the chemicals released by stress act like battery acid on your immune system, brain, memory, mood, and

most of all, your heart! This important new report shows you amazingly easy, drug-free ways to reverse years of bad stress. You'll learn:

- Why **smelling a tree can reduce stress** chemicals and boost your immune response—it's true!
- The **"one-minute stress band-aid"**—this simple technique resets your heart rate and brings down your stress chemicals in just 60 seconds!
- Why having one of these in your home **controls blood pressure due to mental stress better than drugs.**
- Gazing at this and you'll **reduce stress in only three to five minutes**—your blood pressure, heart rate and muscle tension all go down.
- Listening to this reduces heart rate and blood pressure in people with heart problems—while it **improves mood and reduces anxiety.**
- And more!
